Design Your Own Awesome GUI

We give you absolute freedom with the design of your user interface. Choose your favorite colors, use your own icons, place room photos as backgrounds or building layout as a canvas for your buttons.

Connect Any System Or Device

Use Our Examples Library

We have a vast library of various preset bOS configurations. Select your heating pump, AC, TV or almost any other device from our library and the configuration will be imported automatically.

Use Your Favorite Platform

You can use our bOS Client apps with any mobile device – iPhone, iPad, Android or Windows. And you can install them on as many mobile devices as you want. ComfortClick also works with Google Assistant and Amazon Alexa.

Design Any Automation Task In Just Minutes

bOS Configurator enables the easiest system configuration you'll ever see! Design complex automation tasks, logic, schedules and scenes in no time. The only limit is your imagination.

Jigsaw

Jigsaw will be the heart of your home automation system. It will control anything from lights and shades to HVAC and alarm and enable you to access your home with your favorite mobile device.
