JUNG ONLINE CATALOGUE

All products and respective information are also available in the JUNG online catalogue. Operating instructions, tender texts, data sheets, product documentation and much more can be found with just one click:

[jung.group/catalogue](https://www.jung.group/catalogue)

Our terms of sale, delivery and payment apply exclusively. The images shown are not binding, in particular with regard to the colour, size and features of the products presented.

SYMBOLS IN THIS CATALOGUE

- Protection level IP 44 ensured
- ▣ Degree of protection IP44 possible, see product description
- Laser labelling possible with Graphic Tool
- Print labelling possible with Graphic Tool

The Forest Stewardship Council® is the most reliable organisation for the protection of important environmental and social standards in forests. The FSC® certification verifies that this printed product was produced using sustainable raw materials. The production was also climate neutral and CO₂ neutral.

Progress as tradition

Innovation, passion and precision have been guiding our product developments for more than 110 years. Light, shading, air conditioning, energy, security, door communication and multimedia – JUNG systems provide the appropriate solution for every requirement.

We have a global presence with around 1,700 employees, 21 subsidiaries and 80 representatives. We consciously combine this internationality with close ties to the headquarters of our family business in Schalksmühle. A future always needs a past - this principle finds expression in our founder's villa with its newly-built annexe. The previous home of our company founder,

Albrecht Jung, has found a new purpose as a meeting and service centre. The minimalist design of the building, the careful selection of the materials used in the renovation and new building as well as the use of renewable energies reflect the standard we also apply to our products: future-oriented building technology with an outstanding design.

More information can
be found here:
www.jung.group/villa

Quality – Made in Germany

Products and systems from JUNG are appreciated worldwide as a guarantee for reliable high quality. Developed and produced in our works in Schalksmühle and Lünen, they unite innovation, functionality, long life and aesthetics.

With production being carried out in Germany, we focus on sustainable development and manufacturing processes, short logistics routes as well as energy efficiency. Each year, millions of socket inserts and flush-mounted units for switches leave our factories in Sauerland. In addition to production on fully-automatic assembly lines, many production steps are carried out manually. For example, all brass switches are brushed by

hand in our in-house metal works to make them almost unique. In order to reproduce the impressive colour depth of the Les Couleurs® Le Corbusier, JUNG has the switches in the LS 990 range painted by hand using a special process. This produces the matt, non-slip surface. Precision in the manual processing and high design quality ensure that our products are high-grade and robust.

JUNG Showrooms

In the JUNG showrooms for architects, professional planners and interested owners, you have the opportunity of experiencing the functioning products and building technology from JUNG in our showrooms & brand stores – including the full functionality of the JUNG smart home systems. To be able to advise you in the best possible way, it is recommended you make an appointment for a meeting.

Here you find all the addresses of the showrooms

Multiple sustainability

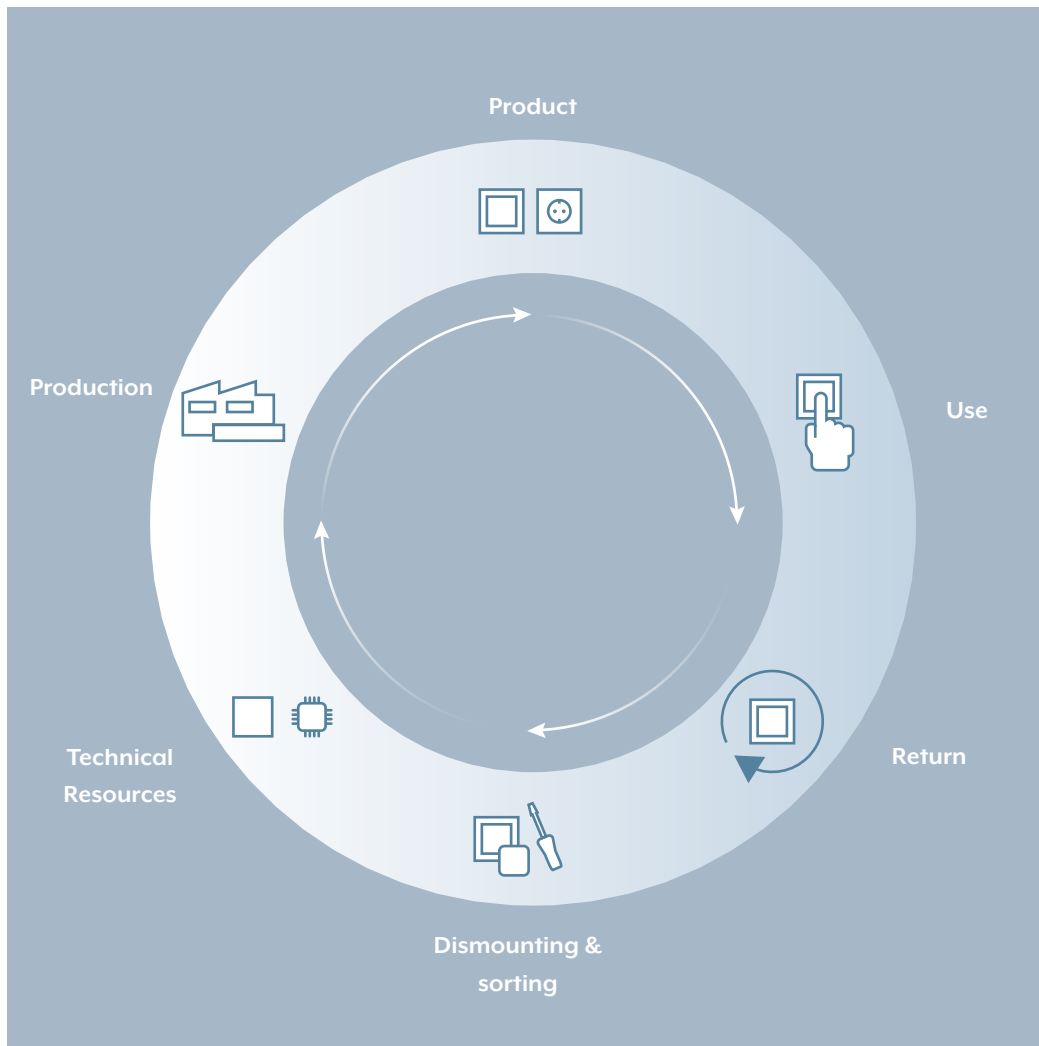

In production we have relied on recycled plastic for many years. The A CREATION, A 550, A CUBE and A FLOW switch ranges in matt anthracite already consist of 95 % resource-saving recyclate. In this way, we contribute to reducing the environmental burden of plastic waste.

[JUNG.GROUP/RECYCLATE](https://www.jung-group.com/en/reyclate)

Cradle to Cradle: a cycle where nothing is lost

The LS 990, AS 500, A 550, A FLOW, LS CUBE and A CREATION ranges have been awarded the Cradle to Cradle (C2C) and Material Health certificates after a rigorous testing process.

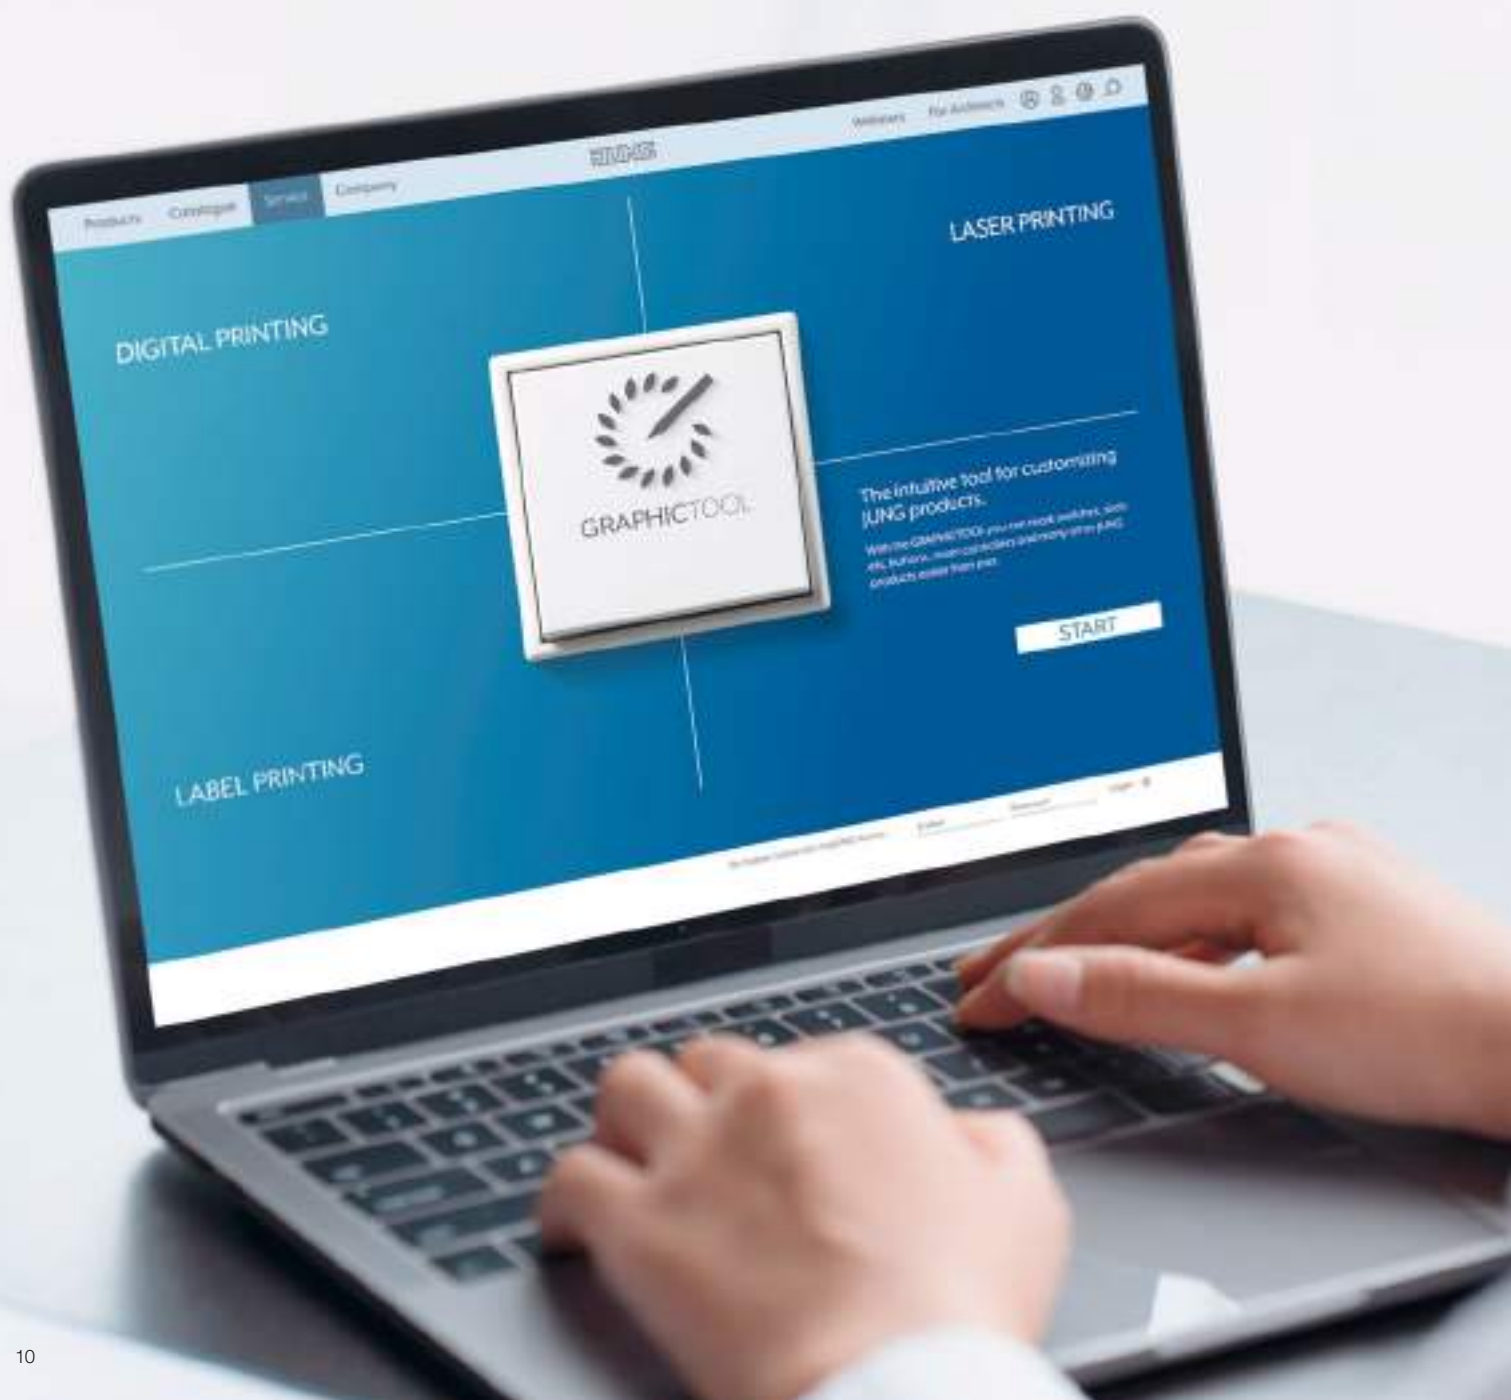

JUNG.GROUP/C2C

The GRAPHIC TOOL 2.0

With the GRAPHIC TOOL, you can design switches, sockets, KNX push-buttons, room controllers and many other devices completely individually. You can customise all of these operating elements online with symbols, text or logos.

LASER ENGRAVING

The laser engraving process enables contours of symbols, texts and ornaments due to the precise removal of the surface.

COLOUR PRINTING

The abrasion-resistant colour printing provides numerous possibilities for individual design.

LABELLING

Integrated inscription fields can be designated via labelling process. This optimises the assignment of functions.

The JUNG GRAPHIC TOOL supports laser engraving, colour printing and identification of inscription fields. The procedure used

depends on your personal demands and the individual product and material.

1-gang switch 10 AX / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²
 Switch can be illuminated in OFF-position with lamp ref.-no. 90/95 (230 V), 96-.. (low voltage), or LED lamp ref.-no. 90-LED.. (230 V) or 961248 LED.. (low voltage).

	Ref.-no.
1-pole, 2-way	506 U
intermediate	507 U
1-pole, 1-way	501 U
2-pole, 1-way	502 U

1-gang switch 20 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 4 mm²

	Ref.-no.
1-pole, 2-way	506-20 U
Switch can be illuminated in OFF-position with lamp ref.-no. 98-220 (230 V).	
intermediate	507-20 U
1-pole, 1-way	501-20 U

1-gang switch 16 AX / 400 V ~ (insert)

with screw terminals for rigid and flexible wires up to 4 mm²
 Switch can be illuminated in OFF-position with lamp ref.-no. 98 or 98-220 (230 V).

	Ref.-no.
3-pole, 1-way	503 U

1-gang switch 10 AX / 250 V ~ (insert) with indicator light

with screwless terminals for rigid wires up to 2.5 mm²
 neutral conductor required
 with glow lamp ref.-no. 90
 Glow lamp can be replaced with LED lamp ref.-no. 90-LED.. (230 V) or 961248 LED.. (low voltage).

	Ref.-no.
1-pole, 2-way	506 KOU
2-pole, 1-way	502 KOU

1-gang switch 20 AX / 250 V ~ (insert) with indicator light

with screw terminals for rigid and flexible wires up to 4 mm²
 neutral conductor required
 with glow lamp ref.-no. 98-220

	Ref.-no.
1-pole, 2-way	506-20 KOU
1-pole, 1-way	501-20 KOU
2-pole, 1-way	502-20 KOU

1-gang switch 16 AX / 400 V ~ (insert) with indicator light

with screw terminals for rigid and flexible wires up to 4 mm²
 with glow lamp ref.-no. 98

	Ref.-no.
3-pole, 1-way	503 KOU

1-gang push-button 10 A / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²
 Can be converted into pull cord push-button by means of pull cord insert ref.-no. 34 or 34 KO5.

Illumination possible with lamp ref.-no. 90/95 (230 V), 96-.. (low voltage), or LED lamp ref.-no. 90-LED.. (230 V) or 961248 LED.. (low voltage).

	Ref.-no.
1-pole, 1-way NO contact	531 U
1-pole, 2-way with terminal for N conductor	533 U
1-pole, 1-way NO contact with separate contacts for indicator light	534 U

1-gang push-button 10 A / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²
 Can be converted into pull cord push-button by means of pull cord insert ref.-no. 34 or 34 KO5.

	Ref.-no.
2-pole, 1-way NO contact	532 U

1-gang push-button 10 A / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm²
 Can be converted into pull cord push-button by means of pull cord insert ref.-no. 34 or 34 KO5.

	Ref.-no.
2-pole, 2-way	533-2 U

1-gang multi push-button 10 A / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm²

When the upper or lower half of the rocker is actuated, two contacts are closed simultaneously.
 Especially designed as controller for wirings with relays, e.g. in combination with relay station ref.-no. RS 8 REGHE.
 No electrical/mechanical interlocking.

Only recommended for CD and LS ranges (except metal versions).

	Ref.-no.
1-pole, 2-way push-button with 2 x 2 NO contacts, rocker in neutral position	531-41 U

2-gang switch 10 AX / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²

	Ref.-no.
2 x 1-pole, 1-way	505 U
2 x 1-pole, 1-way with 2 glow lamps ref.-no. 94	505 U 5
Switch is illuminated in OFF-position. The glow lamps can be exchanged without disconnecting mains.	
2 x 1-pole, 1-way (separate circuits)	501-2 USI

2-gang switch 20 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 4 mm²

	Ref.-no.
2 x 1-pole, 1-way	505-20 U

2-gang switch 10 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm²

	Ref.-no.
2 x 1-pole, 2-way	509 U

2-gang switch 20 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 4 mm²

	Ref.-no.
2 x 1-pole, 2-way	509-20 U

**2-gang switch 10 AX / 250 V ~ (insert)
with indicator light**

with screwless terminals for rigid wires up to 2.5 mm²
neutral conductor required

The glow lamps can be exchanged without disconnecting mains.
Coloured lamps can also be used, e.g.:
green ref.-no.: 94 GN or 94-LED GN
red ref.-no.: 94 RT or 94-LED RT

	Ref.-no.
2 x 1-pole, 1-way with 2 glow lamps ref.-no. 94	505 KOU 5
mechanical interlocking	505 KOVU 5

2-gang push-button 10 A / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²

	Ref.-no.
2 x 1-pole, 1-way NO contact	535 U
2 x 1-pole, 1-way NO contact with 2 glow lamps ref.-no. 94	535 U 5
Switch is illuminated in OFF-position. The glow lamps can be exchanged without disconnecting mains.	
2 x 1-pole, 1-way NO contact (separate circuits)	531-2 USI

2-gang push-button 10 A / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm²

	Ref.-no.
2 x 1-pole, 2-way	539 U

2-gang multi push-button 10 A / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm²

Especially designed as controller for wirings with relays, e.g. in combination with relay station ref.-no. RS 8 REGHE.
No electrical/mechanical interlocking.
Only recommended for CD and LS ranges (except metal versions).

	Ref.-no.
2 x 1-pole, 2-way push-button with 4 floating 1-way NO contacts, rocker in neutral position	532-4 U

2-gang blind switch 10 AX / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²
mechanical interlocking to avoid switching of both rockers at the same time

	Ref.-no.
1-pole (1 motor)	509 VU

2-gang blind push-button 10 A / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²
mechanical interlocking to avoid switching of both rockers at the same time

	Ref.-no.
1-pole (1 motor)	539 VU

3-gang switch 10 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires screw fixing only, without claws
Only for A and LS ranges.
When mounting/dismounting the 3-gang rocker, the middle part has to be clipped on last or removed first.

Ref.-no.

1-pole, 2-way **5306 EU**
Installation into flush box min. 63 mm (depth)

Rotary switch 16 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm² screw fixing only, without claws
not suitable for installation in surface caps

Installation note: No plaster compensation possible. Insert must be mounted flush with the wall. Supporting frame must be on top of wallpaper.

Ref.-no.

Scale disc anthracite
3-level switch with OFF position **1101-4**

Rotary switch 20 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 4 mm² screw fixing only, without claws
not suitable for installation in surface caps

Installation note: No plaster compensation possible. Insert must be mounted flush with the wall. Supporting frame must be on top of wallpaper.

Ref.-no.

Scale disc anthracite
1-way switch, 2-pole **1101-20**

Rotary switch 32 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 6 mm² screw fixing only, without claws

including wall box Ø 60 mm, depth 63 mm

Ref.-no.

Scale disc anthracite
1-way switch, 2-pole **1101-32**

Scale disc

(spare part)

Ref.-no.

for ref.-no. 1101-4
anthracite **SKS 1101-4**
white **SKS 1101-4 WW**
for ref.-no. 1101-20
anthracite **SKS 1101-20**
white **SKS 1101-20 WW**

Timer switch 16 AX / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 4 mm² screw fixing only, without claws
time tolerance ± 10 %, resettable by means of slip clutch

Ref.-no.

Scale disc anthracite
2-pole, 1-way, max. 15 minutes **11015**
2-pole, 1-way, max. 30 minutes **11030**
2-pole, 1-way, max. 30 minutes **11030-20**
2-pole, 1-way, max. 60 minutes **11060**
2-pole, 1-way, max. 120 minutes **11120**
1-pole, 2-way, max. 120 minutes **11120-20**

Scale disc

(spare part)

Ref.-no.

for ref.-no. 11015
anthracite **SKS 11015**
white **SKS 11015 WW**
for ref.-no. 11120-20
anthracite **SKS 11120-20**
white **SKS 11120-20 WW**

Rotary blind switch 10 A / 250 V ~ (insert)

with screw terminals for rigid and flexible wires up to 2.5 mm² Can be converted into rotary push-button by means of locking piece (included).

A pre-travel prevents a quick change of direction.

Ref.-no.

Scale disc anthracite
1-pole (1 motor) **1234.10**
2-pole (2 motors) * **1234.20**
* Can also be used as pole changer (see wiring diagram in data sheet).

Scale disc

(spare part)

Ref.-no.

for ref.-no. 1234.10, 1234.20
anthracite **SKS 1234.10**
white **SKS 1234.10 WW**

Locking piece

(spare part)
for ref.-no.: 1234.10, 1234.20, 834.10 W, 834.20 W

Ref.-no.

34.10

Key switch (insert) with protection against dismounting

with screw terminals for rigid and flexible wires up to 2.5 mm² screw fixing only, without claws for profile half cylinder with total length of approx. 40 mm, e.g. ref.-no.: 28, 28 G1

Centre plate for key switch can only be dismantled when the lock is in unlocked position.

	Ref.-no.
10 AX 250 V ~	
Blind switch, 2-pole (2 motors) *	104.28
10 A 250 V ~	
Blind push-button, 1-pole (1 motor) *	134.18
Blind push-button, 2-pole (2 motors) *	134.28
Push-button, 1-pole, 2-way	133.18
Push-button 1-pole, 1 NC contact – 1 NO contact	138.18
16 AX 250 V ~	
Switch, 2-pole, 2-way	106.28

* A pre-travel prevents a quick change of direction.

Key switch (insert) without protection against dismounting

with screw terminals for rigid and flexible wires up to 2.5 mm² screw fixing only, without claws for profile half cylinder with total length of approx. 40 mm, e.g. ref.-no.: 28, 28 G1
not suitable for installation in surface caps
Installation depth: min. 55 mm
Cover is flush with the cylinder

	Ref.-no.
10 AX 250 V ~	
Blind switch, 1-pole (1 motor) *	104.15
10 A 250 V ~	
Blind push-button, 1-pole (1 motor) *	134.15
Push-button, 1-pole, 2-way	133.15
16 AX 250 V ~	
Switch, 1-pole, 2-way	106.15

* A pre-travel prevents a quick change of direction.

Key switch (insert) with protection against dismounting

with screw terminals for rigid and flexible wires up to 2.5 mm² screw fixing only, without claws for profile half cylinder with total length of approx. 40 mm, e.g. ref.-no.: 28, 28 G1
When using locking cylinder from other manufacturer, please consider, that the cylinder has key access on only one side. (Otherwise water can get through the cylinder into the switch housing. IP44 is thus not guaranteed.)

Centre plate for key switch can only be dismantled when the lock is in unlocked position.

	Ref.-no.

Modular jack socket, cat. 3

with screw connection terminals, suitable for ISDN for 6 (RJ 12) and 8 (RJ 45) pole plugs. acc. to DIN EN 60603-7, IEC 603-7

Category 3

suitable up to 16 MHz

Centre plates for modular jack sockets:

for 1 terminal

AS / A ranges: ref.-no. A 569-1 PLUA ..

CD range: ref.-no. CD 569-1 UA ..., CD 569-1 NAUA ..

LS range: ref.-no. LS 969-1 UA ..., LS 969-1 NAUA ..., .. 2969-1 UA ..., .. 2969-1 NAUA ..

for 2 terminals

AS / A ranges: ref.-no. A 569-2 BFPLUA ..

CD range: ref.-no. CD 569-2 UA ..., CD 569-2 NAUA ..., CD 590 KL LAN ..

LS range: ref.-no. LS 969-2 UA ..., LS 969-2 NAUA ..., .. 2969-2 UA ..., .. 2969-2 NAUA ..., LS 990 BF KL LAN ..., .. 2990 KL LAN ..

	Ref.-no.
8 screw contacts	
8-pole, for 1 terminal	UAE 8 UPO
2 x 8-pole, for 2 terminals (parallel)	UAE 2X8 UPO
2 x 8 screw contacts	
2 x 8-pole, for 2 terminals (separate)	UAE 8-8 UPO

Modular jack socket, cat. 6 / cat. 6A iso, unshielded

with LSA connection terminals

RJ 45, category 6_A, class E_A (10 Gbit/s / 500 MHz), corresponds to Cat. 6_A acc. to ISO/IEC 11801 Amendment 2 and Cat. 6A acc. to TIA/EIA-568-B.2-10 2008 suitable for PoE+ acc. to IEEE 802.3at

Centre plates

AS / A ranges: ref.-no. A 569-2 BFPLUA ..

CD range: ref.-no. CD 569-2 UA ..., CD 569-2 NAUA ..., CD 590 KL LAN ..

SL range: ref.-no. SL 569-2 UA ..

LS range: ref.-no. LS 969-2 UA ..., LS 969-2 NAUA ..., .. 2969-2 UA ..., .. 2969-2 NAUA ..., LS 990 BF KL LAN ..., .. 2990 KL LAN ..

	Ref.-no.
2 x 8-pole, for 2 terminals (separate)	UAE 8-8 UPO K6 US

Universal modular jack socket cat. 6A iso

Modular jack socket, cat. 6 / cat. 6A iso

screw fixing only, without claws for network applications

LSA connection terminal, shielded

variable running of cable without sharp bending from all directions possible

suitable for standard wall boxes

RJ 45, category 6_A, class E_A (10 Gbit/s / 500 MHz),

corresponds to Cat. 6_A acc. to ISO/IEC 11801 Amendment 2 and Cat. 6A acc. to TIA/EIA-568-B.2-10 2008

suitable for PoE+ acc. to IEEE 802.3at

≥ 1000 insertion/removal cycles, suitable for RJ 11/12

Centre plates for modular jack sockets:

for 1 terminal

AS / A ranges: ref.-no. A 569-1 PLUA ..

CD range: ref.-no. CD 569-1 UA ..., CD 569-1 NAUA ..

	Ref.-no.
8-pole, for 1 terminal	UAE 8 UPOK6
2 x 8-pole, for 2 terminals (separate)	UAE 8-8 UPOK6

Universal modular jack socket cat. 6A iso

RJ 45, shielded

with dust protection cover

for covers ref.-no.: ..569-1 WE ..., ..569-2 WE ..., .. 1969-1 .. WE ..., .. 1969-2 .. WE ..

suitable for standard Keystone openings

suitable for 25 Gbit Ethernet

scope of delivery: 2 pieces

suitable for PoE+ acc. to IEEE 802.3at

> 750 insertion/removal cycles

■ Unmistakable terminals with colour code and numeration (A and B code of the same value)

■ For data cables with a diameter of 6 – 10 mm

■ For wires of AWG 22 to AWG 24 (rigid)

Can be combined with 2-gang supporting frame ref.-no.: UMA-MA2-KS2 and centre plates .. 569 T ..., .. 969 T .. of all design ranges.

	Ref.-no.
	UMA-CAT6A-25

2-gang supporting frame

for 2 universal modular jack sockets, ref.-no. UMA-CAT6A-25

screw fixing only, without claws

straight (0°) or slanted module outlet (30°)

Can be combined with centre plates ref.-no. .. 569 T ..., .. 969 T .. of all design ranges.

	Ref.-no.
	UMA-MA2-KS2

Smart TV socket

(with supporting frame, screw fixing only)
 cover with snap-on fixing shutter with spring including universal modular jack socket ref.-no.: UMA-CAT6A-25 and IEC plug module for antenna cables

Consider bending radius and various plug types. Ensure sufficient installation space.

Technical data

Specification IEC plug module	
External connection:	IEC male, IEC 60169-2
Internal connection:	F female, IEC 60169-24
Impedance:	75 Ohm
Frequency range:	5 ... 2,400 MHz
Attenuation:	0.0 dB
Installation depth not considering cables	
Universal modular jack socket:	28 mm
IEC plug module:	30 mm
Use right angle plug.	
Consider bending radius. Ensure sufficient installation space.

Multimedia terminals

JUNG offers individual solutions for every requirement. Video, audio, surround sound: the most varied connections are thus created in combination. In the JUNG design, the electrical installation is always harmoniously integrated in the interior.

Multimedia components such as a screen, 3D digital projector and games console belong to just about every setup in a private household, office or hotel. The JUNG multimedia terminals connect these devices with the existing electrical installation.

SCHUKO® Sockets with USB

High charging capacity: JUNG Quick Charge® is the fast charging function in a single USB-A or USB-C port. Depending on the connected mobile device, JUNG Quick Charge® increases the voltage level to up to 9 volts. For optimised charging results.

SCHUKO® SOCKET

with USB-A in LS 990 in white

FRENCH / BELGIAN SOCKET

with USB-A+C in LS 990 in white

USB CHARGER

with USB-A+C in LS 990 in white

USB CHARGER, POWER DELIVERY

with USB-C in LS 990 in white

The JUNG sockets with USB charge mobile devices flexibly without having to occupy the socket. The version with JUNG Quick Charge® has either a single USB-A or USB-C port. The sockets with two USB ports (type A and type C) are the optimum 3-in-1 solution. The different connections can be used at the same time thus providing the greatest possible flexibility.

Versions in real metal are also available. The USB chargers with both USB-A and USB-C ports also rapidly provide new energy for all mobile devices. The models with USB Power Delivery charge at up to 60 watts. Snap-on covers give the chargers an extremely flat and harmonious design, particularly in multiple frames.

JUNG SCHUKO® sockets with USB ports are tested and certified by VDE.

SCHUKO® socket with USB charger**with enhanced contact protection / shutter (Safety Plus)**

with 1 USB port type A
with quick charge function (JUNG Quick Charge®)
with screwless terminals for rigid and untreated flexible wires up to 2.5 mm²
Installation in flush box with dimensions according to DIN 49073
depth of flush box (inner dimension): min. 57 mm

Smart Radio DAB+

Highest sound quality: digital radio in the switch design with real glass front and sensor buttons – also with Bluetooth streaming.

Smart Radio DAB+

for installation in 1-gang or multiple frames and surface caps including power supply

Intended use

- DAB reception in the frequency range 174 MHz to 240 MHz (VHF band III and channel 13)
- FM reception in the frequency range 87.5 MHz to 108 MHz (VHF band II)
- Mounting on wall box with dimensions according to DIN 49073
- Depth of flush box (inner dimension): min. 40 mm

Product characteristics

- Digital radio with display and sensor buttons
- Real glass front
- Stereo reception
- Connection terminals for two loudspeakers
- Stereo/mono switch-over
- Simple operation
- Integrated antenna for DAB+ and VHF
- High reception quality
- Automatic station scanning
- Storage of 8 favourites DAB+ and 8 favourites VHF (will be retained after power failure)
- Switch-on with last station
- Switch-on with last volume
- Switch-on with last operating mode (DAB+ or VHF)
- Display of station information, time and current settings
- Current time via RDS and DAB+
- Brightness level of display can be adjusted
- Night mode
- Alarm function
- Sleep mode
- Switching on/off via extension unit
- Line-out output (AUX) to connect external amplifiers
- Optional external cable antenna ref.-no.: RAD-ANT

Satellite function

The radio is equipped with a satellite input to connect an external switch.

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Connection:	screw terminals
Terminals for:	1 x 2.5 mm ² or 1 x 1.5 mm ²
Power consumption stand-by:	< 1 W
Power consumption during operation:	< 4 W
Temperature range:	0 ... +50 °C
Atmospheric humidity:	15 ... 90 % (no condensation)
DAB frequency range:	174 ... 240 MHz
VHF frequency range:	87.5 ... 108 MHz
Separate loudspeaker connection cable:	Twin loudspeaker cable H03VH-H, 2 x 0.75 mm Alternative: J-Y(St)Y 2 x 2 x 0.6 mm
Length of connected cable:	max. 5 m

Emergency system

The JUNG emergency system is a well-conceived, complete set for emergency calls in WCs or en-suite bathrooms in old people's homes and nursing homes or WC facilities in public buildings. It ensures that a person in need of help can sound the alarm in an emergency and meets all the safety-related requirements in accordance with DIN VDE 0834.

Emergency system

The JUNG emergency system is a well-conceived, complete set for emergency calls in WCs or en-suite bathrooms in old people's homes and nursing homes or WC facilities in public buildings. It ensures that a person in need of help can sound the alarm in an emergency and meets all the safety-related requirements in accordance with DIN VDE 0834.

The emergency system is a modular distributed system.

The following four components are available as a complete emergency system set:

■ Pull cord push-button

An emergency call can be triggered in the bathroom/WC via an easily accessible pull cord. The pull cord push-button can also be installed in the middle of the room on the ceiling so that it is easily accessible for people in need of help. A red lamp on the switch signals that the emergency call has been triggered successfully.

■ Emergency signal

The emergency signal can e.g. be installed outside next to the WC door or landing door. A triggered emergency call is signalled visually by a red LED and acoustically by a buzzer, 90 dB(A). Both signals can, if required, be changed from continuous light/continuous tone to flashing light/pulsing tone.

■ Reset button

The reset button is installed next to the door in the same room as the pull cord push-button. The assisting personnel can reset the triggered call.

■ Power supply for the emergency call system with DC 24 V

The **service unit**, **service terminal** and the **call button** are separately available. The service unit can be installed in addition to the components of the emergency set e.g. in a staff room or lobby. A green button indicates presence while a yellow button suppresses the acoustic emergency signal for 20 seconds. The call button has an additional control for triggering an emergency call.

The emergency system is available for the AS / A, CD and LS design ranges to complete a unique design in a building. The design frames are part of the system set.

For a system extension all components are available separately.

Emergency system set

consists of pull cord push-button, emergency signal, reset button and power supply

screw fixing only, without claws
with 1-gang frames

Service terminal

- Central remote signalling from up to 20 alarms
- Optical and acoustical signalling
- Two-line display for indication of the alarms
- Programmable alarm messages with up to 16 characters for allocating the alarms
- 20 electrically isolated inputs with one ground
- Evaluation of stand-by current or operating current
- Suppression of the acoustical alarms for 20 seconds
- Green presence push-button
- Yellow alarm suppression push-button
- Programmable with the PC
- USB-cable and Software (multi-language) included
- Power supply 24 V DC
- Inputs 24 V DC
- For screw-fixing in a wall box without claws
- Dimensions: 145 x 100 x 24 mm (H x W x D)

Hotel installation

High comfort for the guest, more economic efficiency for the owner and efficient work processes for the personnel. This is what the professional hotel installations from JUNG stand for.

Corridor unit
The integration of card readers in the JUNG system can also be realised in the project.

Room unit with key card holder

A good hotel is perfectly coordinated in its processes and provides its guests with a high degree of service and comfort. The well thought-out and proven hospitality solutions from JUNG help both guests and hotel personnel. The intuitive opera-

ting philosophy for controlling room functions and automated processes is an essential factor here. Only then does the guest feel comfortable. In addition, the necessary routines can be created in the daily work of the hotel personnel.

1-gang push-button 10 A / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²

Illumination possible with lamp ref.-no. 90/95 (230 V), 96... (low voltage), or LED lamp ref.-no. 90-LED.. (230 V) or 961248 LED.. (low voltage).

	Ref.-no.

	Ref.-no.
2-pole, 1-way NO contact	532 U

Key card holder

for push-button ref.-no.: 531 U, 532 U, 533 U, 534 U

The key card holder is used to keep the hotel card and to ensure a high level of safety and energy savings, since all possibly powered electrical loads are switched off automatically when removing the hotel card.

The key card holder will be completed with a push-button of the JUNG portfolio. The push-button ref.-no. 533 U with 1-way NO/NC contact and additional N-terminal is recommended. The separate N-terminal enables the illumination of the device with incandescent or LED lamp at the same potential. If the pilot lamp should not be at the same potential, please install the push-button ref.-no. 534 U with separate signal contact.

Installation note: No plaster compensation possible. Insert must be mounted flush with the wall. Supporting frame must be on top of wallpaper.

Energy saving unit (insert)

for key card holder RFID ref.-no.: .. CARD RFID ..

The intended use and the product characteristics refer to the complete device, consisting of energy saving unit and key card holder RFID.

Intended use

- Switching of lighting and other loads
- Triggering of external control systems
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Operation with RFID cards according to RFID standard ISO/IEC 14443 and ISO/IEC 15693
- 2 1-way NO contacts, one of them with configurable switch-off delay
- Status indication with RGB lens
- Lens is dimming down 30 s after inserting the card
- Switch-off delay is signalled by RGB lens after removing the card

Key card holder RFID

for energy saving unit ref.-no.: ESU 230-2

The key card holder RFID is used to keep the hotel card and to ensure a high level of safety and energy savings, since all possibly powered electrical loads are switched off with an adjustable delay after removing the hotel card. The key card holder RFID will be completed with the energy saving unit.

Customised adjustment of the lens colour/brightness and switch-off delay of the second relay are possible before ordering. Subsequent changes are possible with configuration card (ref.-no. CONFIG CARD) which can be ordered separately. Please contact your JUNG representative for customer-specific adjustments of the key card holder.

Electric shaver socket outlet

with enhanced contact protection (shutter)
with screw terminals for rigid and flexible wires up to 4 mm²
isolating transformer
overtemperature protection

Suitable for US NEMA 1 plug (2 pins) and Europlug
Suitable wall boxes: ref.-no. 9062-02, 1656-21

Ref.-no.

SO 7522 EINS

Wall box for hollow walls, 2-gang

for electric shaver socket outlet ref.-no.: SO 7522 EINS

cutting hole Ø: 2 x 68 mm
centre distance: 71 mm
for panel thickness: 7 – 40 mm
device screws: 4
cable inlets 3 x 1.5 mm²: 6

Ref.-no.

9062-02

depth: 47 mm

Temperature controller fan coil, 2-pipe

Intended use

- Switching and operating electrical fan coil units with electrothermically actuated heating/cooling valves
- Measurement and feedback control of the room temperature
- Mounting on wall box with dimensions according to DIN 49073
- Depth of flush box (inner dimension): min. 40 mm

Product characteristics

- Connection of one fan coil unit with up to 3 fan speeds
- Heating or cooling mode
- Real glass front
- 8 capacitive sensor buttons
- Internal temperature sensor
- Room temperature controller function
- Preselection of the current energy level through the option of 5 temperature profiles for use in hotels or similar sites
- Display for indication of actual temperature (°C or °F), fan speed, operating mode/profile
- Menu levels blockable
- 1 status LED (red/green/blue)
- Display brightness and contrast adjustable
- Duration of the display illumination up to 120 seconds
- Satellite input for connection of key card holder

Technical data

Rated voltage:	AC 110 ... 230 V ~
Mains frequency:	50/60 Hz
Switching output	
Contact type:	μ
Output current:	max. 3 A
Switching capacity	
Motors (230 V):	690 VA
Motors (110 V):	300 VA
Outputs for valve drives	
Contact type:	semiconductor (triac), Ⓢ
Switching current:	max. 250 mA
Storage temperature:	-5 ... +45 °C
Transport temperature:	-25 ... +70 °C
Ambient temperature:	-5 ... +45 °C
Relative humidity:	5 ... 95 % (no condensation)
Connection mode:	screw terminals
single wire:	1.5 mm ²
stranded with ferrule:	1.5 mm ²

KNX temperature controller fan coil

Intended use

- Sensor module for operating electrical fan coil units in KNX installations
- Measurement and feedback control of the room temperature • Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Real glass front • 8 capacitive sensor buttons • Internal temperature sensor
- External temperature sensor can be evaluated • Control of fan coil units • Heating and/or cooling mode • Suitable for 2-pipe or 4-pipe systems • Up to 3 fan speeds can be controlled • Room temperature controller function • Preselection of the current energy level either through the option of 4 operating modes in accordance with KNX standard or of 5 temperature profiles for use in hotels or similar sites
- Display for indication of actual temperature (°C or °F), fan speed, operating mode/profile • 1 operating level and 2 menu levels • Menu levels blockable • 1 status LED (red/green/blue) • Display brightness and contrast adjustable • Duration of the display illumination up to 120 seconds • Operation as extension unit for temperature controller possible • Integrated bus coupling unit

Technical data

KNX medium:	TP 256
Rated voltage KNX:	DC 21 ... 32 V SELV
Current consumption KNX:	8 ... 17.5 mA
Protection class:	III
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-20 ... +70 °C

JUNG Visu Pro Software Hotel

License purchase exclusively via the JUNG online shop

Intended use

- Visualisation and operation of KNX systems via devices with HTML5 browser or app (iOS, Android), e.g. Smart Control (ref.-no.: SC 5 SW, SC 0081 U), smartphone, tablet, laptop, PC, etc.
- Support of KNX IP Secure and KNX Data Secure (as of version 4.5)
- Connection to KNX bus via interfaces (ref.-no. IPR 300 SREG, IPS 300 SREG, 20320 1S IPS R, 2131 USBS REG, 2131 USBS), not included

Product characteristics

- Access from max. 20 different clients possible (with Windows 10)
- Integration of Amazon Alexa voice control via myJUNG account
- Integration of Google Home voice control via myJUNG account
- Integration of Samsung SmartThings via myJUNG account
- Secure remote access via myJUNG account (JVP-L necessary)
- Secure remote sharing with further myJUNG accounts
- Access to IP cameras via RTSP
- Control of IP cameras via ONVIF (profile S)
- Multilingual visualisation can be created
- Visualisation switchable between day/night
- Update and upgrade compatible

Process connections

- KNX editor/ KNX editor 2.0
- instlight editor
- Device editor
- vitaLED editor
- XPL editor
- SENEK energy storage
- Process model
- Visualisation editor
- Work sheet generator
- Calendar
- JUNG Visu Pro Starter

Special function HOTEL

- Extension of the KNX editor to max. 150 KNX tunnel connections
Communication via KNX IP Secure Tunnelling
Extended support is only guaranteed when using JUNG interfaces (e.g. IPR 300 SREG, IPS 300 SREG, 20320 1S IPS R, 2131 USBS REG, 2131 USBS).
Integration of third-party systems:
- Door locking systems of Assa Abloy
 - Guest card identification
 - Staff card identification
 - Access counter / documentation
 - Evaluation of the door locking system
 - Hotel booking software Protel PMS
 - Guest identification per room
 - Receive requests from the hotel room (e.g. Do not disturb, Make up room etc.)
 - Change the room temperature of the PMS system
 - Oracle Hospitality OPERA or Oracle Hospitality Suite 8 PMS
 - Guest identification per room
 - Receive requests from the hotel room (e.g. Do not disturb, Make up room etc.)
 - Change the room temperature of the PMS system

LED pilot light

for glass cover ref.-no.: .. CU KO6 TX ..

Intended use

- LED pilot light for use in dry interiors
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Customised inscription, symbols or text in combination with glass cover
- Backlight in white, red, green or orange
- Color change via separate switch, e.g. ref.-no.: 505 U or 505 KO5 VEU M 24 (not included)

	Ref.-no.
	LED KO6 TX 24

Technical data

Rated voltage:	DC 24 V SELV
Rated capacity:	< 1.5 W
Ambient temperature:	-5 ... +45 °C

Glass cover

for LED pilot light ref.-no.: LED KO6 TX 24

The cover is lacquered on the back and has to be lasered individually using the GRAPHIC TOOL.

Power supply Plug & Light

Intended use

- Ballast for switching and dimming light attachments from the Plug & Light system
- Connection to switch, switch inserts with relay contact, electronic switch inserts (trailing edge phase control principle, ref.-no. 1704 ESE), 2-wire LED dimmer (trailing edge phase control principle) and 3-wire LED dimmer (trailing edge phase control principle)
- Compatible dimmers: 1710 DE, 1711 DE, 1730 DD, 1731 DD, 1724 DM, UD 1755 REG, FM UD 420250 REG, FM UD 5500 REG, FM UD 20250 UP, 3901 REGHE, 3902 REGHE, 39004 1S R
- Installation in flush box with dimensions according to DIN 49073
- Operation with centre plate ref.-no.: PL .. DMS ..

Product characteristics

- Automatic detection of the connected light attachments
- Safe extra low voltage SELV DC

Ref.-no.

PL 08 U

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Stand-by power (without light cover and dimmer):	380 mW
Output voltage:	12 V ± 600 mV
Input current:	typical 75 mA
Connected load:	max. 8 W

Centre plate

for power supply Plug & Light, ref.-no.: PL 08 U

Product characteristics

- Magnetic fixing of light attachments
- Mechanical locking of the light attachments for ceiling installation and as protection against dismounting
- Electrical coupling via gold-plated sliding contacts

Radio transmitters

Intuitive control of smart lighting systems: the JUNG radio transmitters combine wireless digital lighting control with the ergonomic handling of a light switch.

**RADIO TRANSMITTER
FOR PHILIPS HUE**

**RADIO TRANSMITTER
WITH BLUETOOTH LOW ENERGY**

**RADIO TRANSMITTER
WITH ENOCEAN**

The EnOcean Tool app is used for the configuration of EnOcean radio transmitters with NFC module: using a smartphone, the product parameters are determined and the devices are configured. In addition, the devices or product ID are read. A PIN code ensures secure access to the data in the NFC interface. The app is above all interesting for original equipment manufacturers and installers and is available at no charge in the app stores to download.

Attached quickly and cleanly

The JUNG radio transmitters ideally complement the JUNG switch ranges. The installation can be implemented flexibly using an adhesive pad or mounting plate. Both components are supplied with the product.

Installation on cavity walls/flush-mounting box

For the installation on a mounting box, the holder plate is screwed in below the switch. The transmitter module is then simply placed with its frame and buttons onto the holder plate – the JUNG radio transmitter is already securely and safely in position.

Friends of Hue radio transmitter

- Smart switch for wireless remote control of Philips Hue lamps
- For switching, dimming and controlling individual light scenes
- For residential use only
- Mounting on flush box with dimensions according to DIN 49073, screw fixing on walls or adhesive fixing on smooth, even surfaces (glass)
- Battery-free device without external power supply
- Transmitting energy is generated from mechanical energy of actuation (energy harvesting)
- Encrypted transmission with device-specific code
- Wireless standard ZigBee Green Power, compatible with Friends of Hue and Apple HomeKit
- Automatic range extension via Philips Hue lamps
- Simple commissioning and configuration via Philips Hue app and Hue Bridge V2 or higher

EnOcean radio transmitters

- Radio transmitter for the transmission of switching, dimming or shutter commands to radio receivers of the EnOcean radio system
- Mounting on flush box with dimensions according to DIN 49073, screw fixing on walls or adhesive fixing on smooth, even surfaces (glass)
- Battery-free device without external power supply
- Transmitting energy is generated from mechanical energy of actuation (energy harvesting)
- Configuration interface: NFC Forum Type 2 Tag (ISO/IEC 14443 Part 2 + 3)
- Optional: Encrypted transmission with AES-128 and sequence counter

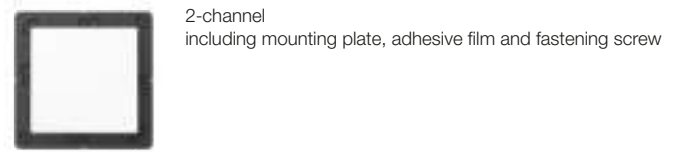

Technical data

Carrier frequency:	868 MHz (ASK)
Transmission range	
in free field:	up to 300 m
in buildings:	approx. 30 m
Transmitting power:	-1.9 dBm / 0.7 mW
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +65 °C
Atmospheric humidity:	0 ... 95 % (no condensation)

The electronic system inserts cover numerous functions for lighting, shading and temperature control. They form the basic infrastructure in the building. The small mounting depth, a stable steel retaining plate and integrated mounting claws make the installation of the system inserts suitable for craftspeople.

- Manual or automatic control of the power unit ref.-no. 1208 REG

Ref.-no.**1708 IE****Technical data**

Rated voltage:	AC 230 V ~
Mains frequency:	50 Hz
Power consumption:	0.25 ... 0.45 W
Current consumption:	approx. 2.8 mA
Pulse duration:	approx. 60 ms
Pulse interval:	approx. 8 s

Power unit for rail mounting

Product characteristics

- Run-on time adjustable
 - Electronic overload protection for the control input
- Four different operating modes can be set:
- Automatic function without switch-off warning
 - Automatic function with switch-off warning
 - Light switched ON continuously
 - Light switched OFF continuously

Automatic switching of light

The pulse insert is combined with a motion detector cover. As soon as the brightness drops below a value set on the motion detector cover and motions are detected, the pulse insert sends a switch-on signal cyclically to the automatic RMD. The latter switches on the light for the set run-on time. After the run-on time has elapsed, the automatic RMD switches the light off. After switch-off, pulse inserts with motion detector covers will not detect any motions for approx. 3 seconds.

Ref.-no.

1208 REG

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50 Hz
Power consumption:	approx. 1 W
Run-on time:	approx. 10 s ... 15 min

External temperature sensor

for room thermostat ref.-no. 1790 RTR, TR D .. 1790 ..
 The sensor cable can be connected using a bifilar cable of 1.5 mm² in diameter that is suitable for mains voltage. When installed in a cable duct or near high voltage current cables, a shielded cable must be used.

Also suitable as external temperature sensor for the following KNX devices, ref.-no.:

.. 2178 TS .., .. 2178 ORTS .., .. 5292 D 1ST, .. 5294 D 1ST, 2177 SV R, 23066 REGHE, 23001 1S U, 23002 1S U, 39001 1S U, .. 459 D 1S .., 4000.. 1S E

Ref.-no.

■ **FF NTC**

Technical data

Dimensions (Ø x H):	7.8 x 28 mm
Cable length:	4 m (can be extended up to 50 m)
Degree of protection:	IP67

Room thermostat insert

with sensor connection

With the JUNG HOME SCHUKO® socket Energy, the energy consumption is measured and visualised in the JUNG HOME app. It can be switched via the JUNG HOME app, the smart push-buttons and on the socket itself.

JUNG HOME at a glance

Light, shade, temperature: at its core, JUNG HOME consists of system inserts, covers and sockets. Locally networked using Bluetooth® Mesh.

Operate wirelessly

The system works locally with the JUNG HOME app.

The data stay secure and do not ever reach the Internet.

Automatically secure with 128-bit encryption and authentication.

Bluetooth® with mesh capability: several products are connected to form a meshed wireless network and can therefore pass on information. The technology is particularly useful when the products are not within direct radio range of each other.

JUNG HOME SCHUKO® socket**with enhanced contact protection / shutter (Safety Plus)**with screw terminals for rigid and flexible wires up to 2.5 mm²

Supporting frame, claws and claw screws are integrated into the earth protection.

Intended use

- Manual or automatic switching of lighting and common household devices
- Wireless linking with JUNG HOME system devices
- For use in dry indoor areas
- Installation in flush box with dimensions according to DIN 49073
- Depth of flush box (inner dimension): min. 53 mm

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Button for switching
- Multi-coloured status indicator with optional night mode
- Disabling of local operation
- Up to 16 time programs
- Switch-on delay / switch-off delay
- Including the load in areas (groups), central functions and scenes
- Activate/deactivate automatic functions using the JUNG HOME app
- Automatic date and time update when connecting with smartphone
- Integrated 16 A switch actuator
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Can be updated using JUNG HOME app

Available in future via update:(Notes on updates and schedules can be found at jung.group/junghome)

- Disable and forced operation: continuous ON/OFF or ON/OFF for fixed time
- Time programs with sunrise or sunset (astro timer)
- Time programs with random timing

JUNG HOME push-button

for inserts "blinds" ref.-no.: 1730 JE and 1731 JE
 for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE,
 1711 DE, 1712 DE, 1713 DSTE, 1723 NE

Intended use

- Manual and automatic operation of e.g. blinds, shutters, awnings, lighting or fans
- Wireless linking with JUNG HOME system devices
- Operation with system insert for switching, dimming, blind or satellite insert 3-wire

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Top, bottom and full-surface operation with up to 2 linked functions per rocker
- Use the buttons to control areas (groups) or to call up scenes
- Use the buttons to operate wirelessly linked JUNG HOME devices
- Multi-coloured status indicator with optional night mode
- Feedback of the load status using status LED
- Disabling of local operation
- Including the load in areas (groups), central functions and scenes
- Up to 16 time programs control the functions of the respective system insert (switch on, switch off, dim, move blind, adjust temperature)
- Staircase lighting function (automatic switch-off) with switch-off warning
- Run-on time, switch-on delay, switch-off delay
- Activate/deactivate automatic functions using the JUNG HOME app
- Automatic date and time update when connecting with smartphone
- Maximum and minimum brightness adjustable, with dimming insert
- Switch-on with last brightness or fixed switch-on brightness, with dimming insert
- Ventilation position, running time, slat change-over time, change-over time for direction change and inverse operation adjustable, with blind insert
- Evaluation of the satellite inputs (if present) for controlling the system insert
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Can be updated using JUNG HOME app

Available in future via update:

(Notes on updates and schedules can be found at jung.group/junghome)

- Use the buttons to trigger the disabling function and forced guidance
- Time programs with sunrise or sunset (astro timer)
- Time programs with random timing
- Disabling function and forced guidance: Lock-out protection, continuous ON/OFF or ON/OFF for a fixed time
- Night light function with period for brightness reduction, with dimming insert
- Hotel function (orientation light instead of OFF), with dimming insert
- Warm dimming (changing of the colour temperature with simultaneous brightness increase), with DALI insert
- Wind alarm via connection of weather sensors to satellite input, with blinds insert

A labelling request in the GRAPHIC TOOL must be submitted together with the order: jung.group/gt
 Subsequent labelling of the buttons is not possible.

JUNG HOME push-button, battery-powered

Intended use

- Operation of e.g. Venetian blinds, shutters, awnings, lighting or fans
- Wireless linking with JUNG HOME system devices
- Mounting on wall box with dimensions according to DIN 49073
- Screw fixing on walls or adhesive fixing on smooth surfaces

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Multi-coloured status indicator
- Central functions: all ON/all OFF, call up scenes
- Disabling of local operation
- Fully encrypted wireless communication
- Compatible with Bluetooth® Mesh Standard
- Can be updated using JUNG HOME app
- Battery operation with one included lithium button cell

Technical data

Rated voltage:	DC 3 V
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +70 °C
Battery type:	1 x Lithium GR 2450 Duracell (recommended) or CR 2450N
Radio frequency:	2402.0 ... 2480.0 MHz
Transmitting power:	max. 10 mW, class 1.5
Transmission range in buildings:	approx. 30 m

JUNG HOME room thermostat display

for room thermostat insert ref.-no.: 1790 RTR
 for switch inserts ref.-no.: 1701 SE, 1701 PSE, 1704 ESE

Intended use

- Manual and time-controlled regulation of the room temperature
- Wireless linking with JUNG HOME system devices
- Operation with system insert for room temperature control
- Operation with system insert for switching

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Up to 16 time programs for automatic heating
- Switch between manual/automatic operation using JUNG HOME app or local operation
- Automatic date and time update when connecting with smartphone
- Setting a comfort, ECO, cooling and frost protection temperature
- Setting range for min. and max. temperature value can be changed
- Boost function: Quick heat-up for max. 5 minutes
- Illuminated segment display for easy reading
- Display switch-off after 2 minutes or continuous display possible
- Disabling of local operation
- Including the load in areas (groups), central functions and scenes
- Optimised heating up (temperature is reached at the set time), can be switched off
- Adaptation to valves (normally open or normally closed)
- Cooling mode possible (optimised for heat pumps)
- Supports internal and external temperature sensor
- Temperature sensor offset (correction value for the measured temperature)
- Controller output working method: pulse width modulation (PWM) or two-point

Available in future via update:

- (Notes on updates and schedules can be found at jung.group/junghome)
- Holiday program reduces heating costs during absence and heats up the room again before return
 - Time programs with sunrise or sunset (astro timer)

Technical data

Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-20 ... +70 °C
Accuracy per month:	± 10 s
Power reserve:	min. 4 h
Radio frequency:	2402.0 ... 2480.0 MHz
Transmitting power:	max. 10 mW (class 1.5)
Transmission range	
in buildings:	approx. 30 m
Regulator class (EU 811/2013):	IV
Contribution to energy efficiency:	2 %

Room thermostat insert, ref.-no.: 1790 RTR see page 147

JUNG HOME motion detector 1.1 m

for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE, 1711 DE, 1712 DE, 1713 DSTE, 1723 NE

Intended use

- Automatic switching of lighting depending on the thermal movement and ambient brightness
- Wireless linking with JUNG HOME system devices
- Operation with system insert for switching or dimming or satellite insert 3-wire
- Wall installation on system insert

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Switch for continuous ON/OFF or automatic operation
- Detection range extended by combining several JUNG HOME motion detectors or via satellite input
- Screen for limiting the detection area
- Multi-coloured status indicator
- Disabling of local operation
- Free linking of the motion sensor with actuator in the insert or wirelessly with other JUNG HOME devices
- Up to 16 time programs control the functions of the respective insert (ON/OFF switching or dimming)
- Staircase lighting function (automatic switch-off) with switch-off warning
- Run-on time, switch-on delay, switch-off delay
- Activate/deactivate automatic functions using the JUNG HOME app
- Automatic date and time update when connecting with smartphone
- Maximum and minimum brightness adjustable, with dimming insert
- Switch-on with last brightness or fixed switch-on brightness, with dimming insert
- Including the load in areas (groups), central functions and scenes
- Evaluation of the satellite inputs (if present) for controlling the system insert
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Can be updated using JUNG HOME app

Available in future via update:

(Notes on updates and schedules can be found at jung.group/junghome)

- Time programs with sunrise or sunset (astro timer)
- Time programs with random timing
- Dynamic run-on time
- Disabling function and forced guidance: Continuous ON/OFF or ON/OFF for fixed time
- Night light function with period for brightness reduction, with dimming insert
- Hotel function (orientation light instead of OFF), with dimming insert
- Warm dimming (changing of the colour temperature with simultaneous brightness increase), with DALI insert
- Calling a scene with movement

Technical data

Ambient temperature:	-5 ... +45 °C
Transport temperature:	-25 ... +70 °C
Storage temperature:	-5 ... +45 °C
Relative humidity:	20 ... 70 % (no condensation)
Accuracy per month:	± 13 s
Degree of protection:	IP20
Power reserve:	min. 4 h
Detection angle:	180°
Mounting height:	1.10 m
Sensitivity:	0, 25, 50, 75, 100 %
Brightness setting:	approx. 5 ... 1,000 lx (and daytime operation)
Run-on time:	approx. 1 s ... 240 min
Radio frequency:	2402.0 ... 2480.0 MHz
Transmitting power:	max. 10 mW (class 1.5)
Transmission range in buildings:	approx. 30 m

JUNG HOME motion detector 2.2 m

for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE, 1711 DE, 1712 DE, 1713 DSTE, 1723 NE

IP44 suitable for installation in interiors and exteriors

Intended use

- Automatic switching of lighting depending on the thermal movement and ambient brightness
- Wireless linking with JUNG HOME system devices
- Operation with system insert for switching or dimming or satellite insert 3-wire
- Wall installation on system insert

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- 2 buttons for continuous ON/OFF or automatic operation
- Detection range extended by combining several JUNG HOME motion detectors or via satellite input
- Multi-coloured status indicator
- Disabling of local operation
- Free linking of the motion sensor with load output in the system insert or wirelessly with other JUNG HOME devices or for calling up a scene
- Up to 16 time programs control the functions of the respective insert (ON/OFF switching or dimming)
- Staircase lighting function (automatic switch-off) with switch-off warning
- Run-on time, switch-on delay, switch-off delay
- Activate/deactivate automatic functions using the JUNG HOME app
- Automatic date and time update when connecting with smartphone
- Maximum and minimum brightness adjustable, with dimming insert
- Switch-on with last brightness or fixed switch-on brightness, with dimming insert
- Including the load in areas (groups), central functions and scenes
- Evaluation of the satellite inputs (if present) for controlling the system insert
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Can be updated using JUNG HOME app

Available in future via update:

(Notes on updates and schedules can be found at jung.group/junghome)

- Time programs with sunrise or sunset (astro timer)
- Time programs with random timing
- Dynamic run-on time
- Disabling function and forced guidance: Continuous ON/OFF or ON/OFF for fixed time
- Night light function with period for brightness reduction, with dimming insert
- Hotel function (orientation light instead of OFF), with dimming insert
- Warm dimming (changing of the colour temperature with simultaneous brightness increase), with DALI insert
- Calling a scene with movement

Technical data

Ambient temperature:	-5 ... +45 °C
Transport temperature:	-25 ... +70 °C
Storage temperature:	-5 ... +45 °C
Relative humidity:	20 ... 70 % (no condensation)
Degree of protection:	IP20
Accuracy per month:	± 13 s
Power reserve:	min. 4 h
Detection angle:	180°
Mounting height:	1.1 / 2.2 m
Sensitivity:	0, 25, 50, 75, 100 %
Brightness setting:	approx. 5 ... 1,000 lx (and daytime operation)
Run-on time:	approx. 1 s ... 240 min
Radio frequency:	2402.0 ... 2480.0 MHz
Transmitting power:	max. 10 mW (class 1.5)
Transmission range in buildings:	approx. 30 m

for AS and A ranges

Degree of protection IP44 is ensured with sealing kit ref.-no. AS A 50 DS and "IP44 frame" of the respective design range.

JUNG HOME presence detector

for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE, 1711 DE, 1712 DE, 1713 DSTE, 1723 NE

Intended use

- Automatic switching of lighting depending on the thermal movement and ambient brightness
- Wireless linking with JUNG HOME system devices
- Operation with system insert for switching or dimming or satellite insert 3-wire
- Ceiling installation on system insert

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Detection range extended by combining several JUNG HOME presence detectors or via satellite input
- Screen for limiting the detection area
- Multi-coloured status indicator
- Disabling the **Prog** button
- Free linking of the motion sensor with actuator in the insert or wirelessly with other JUNG HOME devices
- Up to 16 time programs control the functions of the respective insert (ON/OFF switching)
- Staircase lighting function (automatic switch-off) with switch-off warning
- Run-on time, switch-on delay, switch-off delay
- Activate/deactivate automatic functions using the JUNG HOME app
- Automatic date and time update when connecting with smartphone
- Maximum and minimum brightness adjustable, with dimming insert
- Switch-on with last brightness or fixed switch-on brightness, with dimming insert
- Including the load in areas (groups), central functions and scenes
- Evaluation of the satellite inputs (if present) for controlling the system insert
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Can be updated using JUNG HOME app

JUNG HOME switch actuator 1-gang mini with 2 binary inputs

Intended use

- Manual and automatic switching of lighting and common household devices
- Operation via binary inputs of the JUNG HOME actuator, JUNG HOME push-button, JUNG HOME sensors and JUNG HOME app
- Polling of conventional switching and push-button contacts for reporting states, triggering light scenes, operating

electrical loads, etc.

- Wireless linking with JUNG HOME system devices
- Installation in flush box with dimensions according to DIN 49073
- Ceiling installation in the mini housing built-in adapter, ref.-no.: FM-EBG

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Free linking of the 2 binary inputs with JUNG HOME actuators (local or wireless)
- Independent use of actuator functions and binary inputs
- Multi-coloured status indicator and **Prog** button for commissioning
- Disabling the **Prog** button
- Including the load in areas (groups), central functions and scenes
- Up to 16 time programs
- Staircase lighting function (automatic switch-off) with switch-off warning
- Run-on time, switch-on delay, switch-off delay
- Activate/deactivate automatic functions using the JUNG HOME app
- Automatic date and time update when connecting with smartphone
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Can be updated using JUNG HOME app

Available in future via update:

(Notes on updates and schedules can be found at jung.group/junghome)

- Time programs with sunrise or sunset (astro timer)
- Time programs with random timing
- Disabling function and forced guidance: Continuous ON/OFF or ON/OFF for fixed time
- Wind alarm via connection of weather sensors to binary inputs
- Trigger the disabling function using binary inputs, e.g. lock-out protection with awnings, shutters and blinds, forced guidance, etc.

Mounting adapter for mini housing

The mounting adapter is equipped with a strain relief and a cover for the contact terminals. It enables the installation of mini actuators into false ceilings or on DIN rails. Dimensions: 97 x 53 x 36 mm

Ref.-no.
FM-EBG

JUNG HOME gateway

including power supply
including LAN cable

Intended use

- Connecting JUNG HOME devices to myJUNG services, e.g. for voice control
- Connecting JUNG HOME devices to other smart home systems via the local network
- Only suitable for use in indoor areas that are free of dripping and splashing water
- For wall installation or as desktop device (top-hat rail mounting with separately available adapter for rail mounting, ref.-no.: MA-REG)

Product characteristics

- Commissioning and operation using JUNG HOME app with mobile device (smartphone or tablet) via Bluetooth®
- Bluetooth® Mesh for fully encrypted wireless communication and repeater function
- Encrypted communication via myJUNG services e.g. with services from Alexa, Google Home
- 3 status LEDs for commissioning and operation support
- Button for commissioning and for factory reset
- RJ45 socket and included LAN cable for connecting to WLAN router
- Can be updated using JUNG HOME app
- Encrypted communication with local network e.g. with wibutler pro and Mediola gateway

The gateway has been awarded the "Smart Home - Information Security Tested" certificate by the VDE Institute.

eNet SMART HOME

eNet SMART HOME APP

Switching or dimming lights. Control blinds or heating – from home or on the move. JUNG eNet SMART HOME is the ideal solution for more convenience and security in your home and in the office.

eNet SMART HOME

eNet SMART HOME is the wireless solution for a networked system. It is operated via touch displays, tablet and smartphone or via voice command – fully encrypted and secure, even for remote access.

eNet SMART HOME connect

This is the browser-based set-up interface for installers. It links the eNet transmitters to the actuators and makes or defines settings and performs diagnostics.

eNet SMART HOME app

The app is available in Android and iOS versions and enables operation of the eNet SMART HOME facility through a smartphone. Simple operation takes place through the home network or through remote access over the internet.

eNet SMART HOME remote

The home under control at all times: users can always access their eNet installation via the eNet SMART HOME app even when on the move. Up to eight end devices can be used with one registration.

eNet SMART HOME secure

The eNet SMART HOME is protected by targeted security measures. These include data security, the server location in Germany and protection against manipulation as well as pre-encrypted radio transmission.

Secure communication

The information security of the remote access eNet SMART HOME remote (backend API) is verified by VDE.

Easy to set up

The browser-based eNet SMART HOME connect set-up interface is already integrated in the eNet Server. This makes it convenient to assign devices, functions and installations on the display. The documentation and processing of created projects are easily done. As soon as the computer and the eNet Server are connected with each other, the application can be started.

CREATING ROOMS

The rooms for a project are created first. These can be freely named. Careful structure planning is important, as this is reflected 1:1 in the visualisation.

FINDING DEVICES AND ALLOCATING TO ROOMS

The device search is used to add devices from the eNet system to the project. In this way, all devices in learning mode or that have been connected to the electrical supply in the last few minutes are found and displayed. Afterwards, the devices can be allocated to rooms and the device channels named individually as appropriate for their use.

MAKING CONNECTIONS

Now, actuator and sensor channels are assigned to each other and functionally connected with each other. The devices networked in this way communicate with each other directly when operated, which results in a very robust, fail-safe function.

WRITING AND EXPORTING PROJECTS

In the final step, the project design data are written to the devices. The app visualisation is generated automatically. In addition, the electrical installer can export the project, use it as a backup or as a template for future projects.

Everything under mobile control

Control eNet SMART HOME from anywhere: simply via mobile app – whether in your own WLAN or via remote access. Including all settings affecting the Smart Home. Base: the eNet Server.

Display all rooms with their functions

Simply record and control all functions

Combine functions into comfort scenes

Programming event-dependent functions

Create time-controlled function sequences

Fingertip operation of all individual functions

eNet radio brightness detector, solar-powered

- Sensor for brightness-dependent control of eNet actuators
- Mounting on window panes in interiors
- Triggers scenes when the set sun protection and twilight value is exceeded or undershot
- Temperature-dependent sun protection possible
- Scene buttons for sun protection and twilight
- Solar-powered device

Ref.-no.
FM FS 1 S

Technical data

Ambient temperature:	-5 ... +45 °C
Brightness setting:	4,000 ... 80,000 lx
Twilight setting:	5 ... 250 lx
Temperature setting:	+15 ... +40 °C (and OFF)
Dimensions (Ø x H):	75 x 27 mm

eNet motion detector

battery-powered device for controlling eNet radio actuators

- Automatic switching of lighting depending on the thermal movement and ambient brightness
- LED for signalling
- Brightness threshold adjustable
- Run-on time adjustable
- Sensitivity selectable

Ref.-no.
FM DW 360 WW

Technical data

Rated voltage:	DC 6 V
Ambient temperature:	-5 ... +45 °C
Brightness setting:	approx. 5 ... 2,000 lx (and daytime operation)
Sensitivity:	25 ... 100 %
Run-on time:	approx. 10 s ... 30 min (with eNet server 60 min)
Mounting height:	2.50 m
Detection angle:	360°
Detection range	
Radial movement:	Ø approx. 5 m
Tangential movement:	Ø approx. 8 m
Dimensions (Ø x H):	103 x 42 mm

eNet radio energy detector 1-gang mini

- Energy sensor for radio transmission of energy values
- Sensor for load-dependent control of eNet actuators with eNet server
- Calculation of the active power and the active energy
- Event or time-controlled transmission of measured value telegrams to the eNet server

Ref.-no.
FM ES 3680 UP

Technical data

Rated voltage:	AC 230 V ~, 50/60 Hz
Rated load current:	16 A
Dimensions (Ø x H):	53 x 23 mm
Transmitted power and energy values	
Active power:	-4,000 ... 4,000 W
Apparent power:	0 ... 4000 VA
Reactive power:	-4,000 ... 4,000 var
Active energy:	-99,999 ... 99,999 kWh

eNet radio energy detector 4-gang, for rail mounting

- Energy sensor to determine energy values
- Sensor for load-dependent control of eNet actuators with eNet server
- Transfer of the measured values to the eNet server
- Separate calculation of the active power and the active power for each measuring channel
- Event or time-controlled transmission of measured value telegrams to the eNet server

Ref.-no.
FM ES 36804 REG

Technical data

Rated voltage:	AC 230 V ~, 50/60 Hz
Rated load current:	16 A
Mounting width:	72 mm (4 rail units)
Transmitted power and energy values	
Active power:	-4,000 ... 4,000 W
Apparent power:	0 ... 4000 VA
Reactive power:	-4,000 ... 4,000 var
Active energy:	-99,999 ... 99,999 kWh

eNet radio switch/push-button actuator 1-gang mini

- Switching of lighting
- Operation with suitable eNet radio transmitters
- Installation in flush box with dimensions according to DIN 49073 in combination with a suitable cover
- Mounting in surface-mounted housing or mounting adapter (ref.-no. FM-EBG) for false ceilings

Ref.-no.
FM AS 10 UP

Technical data

Connected load at 35 °C	
Incandescent lamps:	2300 W
HV halogen lamps:	2000 W
Electronic transformers:	1500 W
Inductive transformers:	1000 VA
HV LED lamps:	typical 500 W
Compact fluorescent lamps:	typical 500 W
Fluorescent lamps non-compensated:	920 VA
Capacitive load:	690 VA (560 µF)

eNet radio switch/push-button actuator with floating contact, 1-gang mini

- Switching of lighting
- Operation with suitable eNet radio transmitters
- Installation in flush box with dimensions according to DIN 49073 in combination with a suitable cover
- Mounting in surface-mounted housing or mounting adapter (ref.-no. FM-EBG) for false ceilings

Ref.-no.**FM AS PF 10 UP****Technical data**

Connected load at 35 °C	
Incandescent lamps:	2300 W
HV halogen lamps:	2000 W
Electronic transformers:	1500 W
Inductive transformers:	1000 VA
HV LED lamps:	typical 500 W
Compact fluorescent lamps:	typical 500 W
Fluorescent lamps non-compensated:	920 VA
Capacitive load:	690 VA (560 µF)

eNet radio switch/push-button actuator 2-gang mini

- Switching of lighting and single-phase motors
- Operation with suitable eNet radio transmitters
- Installation in flush box with dimensions according to DIN 49073 in combination with a suitable cover
- Mounting in surface-mounted housing or mounting adapter (ref.-no. FM-EBG) for false ceilings

Ref.-no.**FM AS 26 UP****Technical data**

Connected load per output at 35 °C	
Incandescent lamps:	2300 W
HV halogen lamps:	2000 W
Electronic transformers:	1500 W
Inductive transformers:	1000 VA
HV LED lamps:	typical 500 W
Compact fluorescent lamps:	typical 500 W
Fluorescent lamps non-compensated:	920 VA
Motors:	450 VA
Capacitive load:	690 VA (560 µF)

eNet radio blinds actuator 1-gang mini

- Operating mode switch for switch-over to blind actuator, shutter actuator or parameterisation via eNet server
- Positioning of the blind and slats via light scene recall
- Position for sun protection and twilight can be saved
- Status feedback to radio transmitter
- Switchable output with **Prog** button
- Blind/shutter running time can be saved
- Slat change-over time can be saved
- Fabric-stretching for awnings
- Status indication with LED

Ref.-no.**FM J 50700 UP****Technical data**

Rated voltage:	AC 230 V ~, 50/60 Hz
Connected load	
Motors:	1000 W

eNet radio dimming actuator 1-gang mini

- Switching and dimming of incandescent lamps, HV halogen lamps, electronic transformers for halogen or LED lamps, dimmable inductive transformers for halogen or LED lamps, HV LED or compact fluorescent lamps
- Switch-on via bulb-preserving soft start
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Scene operation possible
- Status indication with LED
- Status feedback to radio transmitter
- Switchable with **Prog** button
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection
- Automatic or manual setting of the dimming principle suitable for the load
- Power extension possible by means of power boosters (ref.-no. ULZ 1755 REG)

Ref.-no.**FM UD 20250 UP****Technical data**

Rated voltage:	AC 230 V ~, 50/60 Hz
Connected load at 45 °C	
Incandescent lamps:	20 ... 250 W
HV halogen lamps:	20 ... 250 W
Dimmable HV LED lamps:	typical 3 ... 70 W
Dimmable compact fluorescent lamps:	typical 3 ... 70 W

eNet radio push-button controller 1-10 V 1-gang mini

- Switching and brightness setting of luminaires with 1-10 V interface
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Scene operation possible
- Status indication of the 1-10 V subscribers via LED
- Status feedback to radio transmitter
- 1-10 V subscribers switchable with **Prog** button
- 1-10 V interface is protected against reverse polarity

Ref.-no.**FM ST 50 UP****Technical data**

Rated voltage:	AC 230 V ~, 50/60 Hz
Connected load	
Ohmic load:	1380 W
Capacitive load:	690 VA (560 µF)

eNet radio DALI gateway 1-gang mini

- Switching and brightness setting for luminaires with DALI interface
- Joint operation of all the connected DALI ballasts, broadcast
- Electronic short-circuit protection of the DALI supply with permanent switch-off after 8 seconds
- Electronic over-temperature protection of the DALI supply with self-retain
- DALI supply for a maximum of 12 DALI subscribers
- Parallel switching of up to 6 DALI control units with the option of supplying up to 72 DALI subscribers
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Scene operation possible
- Status indication with LED
- Status feedback to radio transmitter
- DALI ballast is switchable with **Prog** button

Ref.-no.**FM STD 8 UP**

Mounting adapter for mini housing

The mounting adapter is equipped with a strain relief and a cover for the contact terminals. It enables the installation of mini actuators into false ceilings or on DIN rails.
Dimensions: 97 x 53 x 36 mm

Ref.-no.
FM-EBG

eNet radio receiver for rail mounting

rail mounting device, 2 rail units

- Radio receiver for flush-mounted series modules
- Integrated antenna
- Operation with power supply, ref.-no.: NT 1220 REG VDC
- Mounting on DIN rail according to EN 60715 in distribution box

Ref.-no.
FM FK 32 REG

eNet antenna

The antenna with magnetic pedestal supplements the integrated antenna of the radio receiver for rail mounting and eNet server in case of unfavourable installation conditions, e.g. a metallic distribution box.

Ref.-no.
FM ANT

Technical data

Antenna length: 17 cm
Cable length: 1.4 m

Power supply for rail mounting

for eNet master receiver ref.-no.: FM FK 32 REG
for eNet server ref.-no.: ENET-SERVER
rail mounting device, 2 rail units

Ref.-no.
NT 1220 REG VDC

Technical data

Input voltage: AC 100 ... 240 V ~, 50/60 Hz
Input current: 505 mA
Output voltage: DC 12 V
Output current: 2 A

eNet radio switch/push-button actuator 1-gang, for rail mounting

rail mounting device, 2 rail units

- Switching of lighting
- Operation with suitable eNet radio transmitters
- Operation with power supply (ref.-no. NT 1220 REG VDC) and eNet radio receiver (ref.-no. FM FK 32 REG) or eNet server

Ref.-no.
FM AS 16 REG

Technical data

Rated voltage: AC 230 V ~, 50/60 Hz
Connected load

Dimmable HV LED lamps:	typical 3 ... 50 W
Dimmable compact fluorescent lamps:	typical 3 ... 50 W

eNet server for rail mounting

rail mounting device, 6 rail units
including plug-in power supply (ref.-no. ST NT 12 VDC) for provisional operation at construction site

- Commissioning, diagnosis and maintenance of an eNet installation via PC, tablet and laptop
- Operation of an eNet installation via smartphone
- Radio receiver for eNet RMD modules
- Internal eNet radio and WLAN antenna
- Operation only with approved power supply
- Mounting on DIN rail according to EN 60715 in distribution box with power supply RMD (ref.-no. NT 1220 REG VDC)
- Mobile use of the eNet server with plug-in power supply (ref.-no. ST NT 12 VDC)

Ref.-no.
ENET-SERVER

Plug-in power supply 12 V

(spare part)

Ref.-no.
ST NT 12 VDC

Technical data

Rated voltage:	AC 230/240 V ~, 50/60 Hz
Output voltage:	DC 12 V
Output current:	max. 1 A
Primary current:	max. 130 mA
Connected load:	12 W

Power supply for rail mounting

for eNet master receiver ref.-no.: FM FK 32 REG
for eNet server ref.-no.: ENET-SERVER
rail mounting device, 2 rail units

Ref.-no.

Antenna length:	17 cm
Cable length:	1.4 m

WLAN antenna

antenna with magnetic pedestal

The antenna with magnetic pedestal supplements the integrated antenna of the eNet server in case of unfavourable installation conditions, e.g. a metallic distribution box.

Ref.-no.
FM WLAN ANT

Technical data

Antenna length:	17 cm
Cable length:	1.4 m

eNet radio signal quality meter

Not suitable for encrypted radio transmission.
Only with eNet server software up to version 1.4.

- Display of the signal quality of a selected eNet device using LEDs
- Display of the signal quality of status messages using LEDs
- Display of radio signals of non-eNet radio transmitters in the 868.0 ... 868.6 MHz frequency band using LEDs
- Switch-on, switch-off of the repeater functions of network-operated actuators, transmitters and energy sensors
- Battery operation with one included lithium button cell (CR 2450N)
- Devices switches off after 5 minutes without actuation

Ref.-no.
FM DT

Smart Control 5

- For vertical installation
- Installation in flush box with dimensions according to DIN 49073
- Capacitive touchscreen
- Fanless, without rotating parts
- eNet visualisation in combination with eNet server for rail mounting (ref.-no.: ENET-SERVER) with software version 2.2 or higher

Ref.-no.
SC 5 SW

Flush-mounted recessed box

for Smart Control ref.-no.: SC 0081 U
cut-out dimensions (W x H): 212 x 124 mm
installation depth: 75 mm

Ref.-no.
EBG 24

Power supply for rail mounting

for Smart Control ref.-no.: SC 0081 U
rail mounting device, 4 rail units

Ref.-no.
NT 2415 REG VDC

Technical data

Input voltage: AC 100 ... 240 V ~, 50/60 Hz
Output voltage: DC 24 V SELV

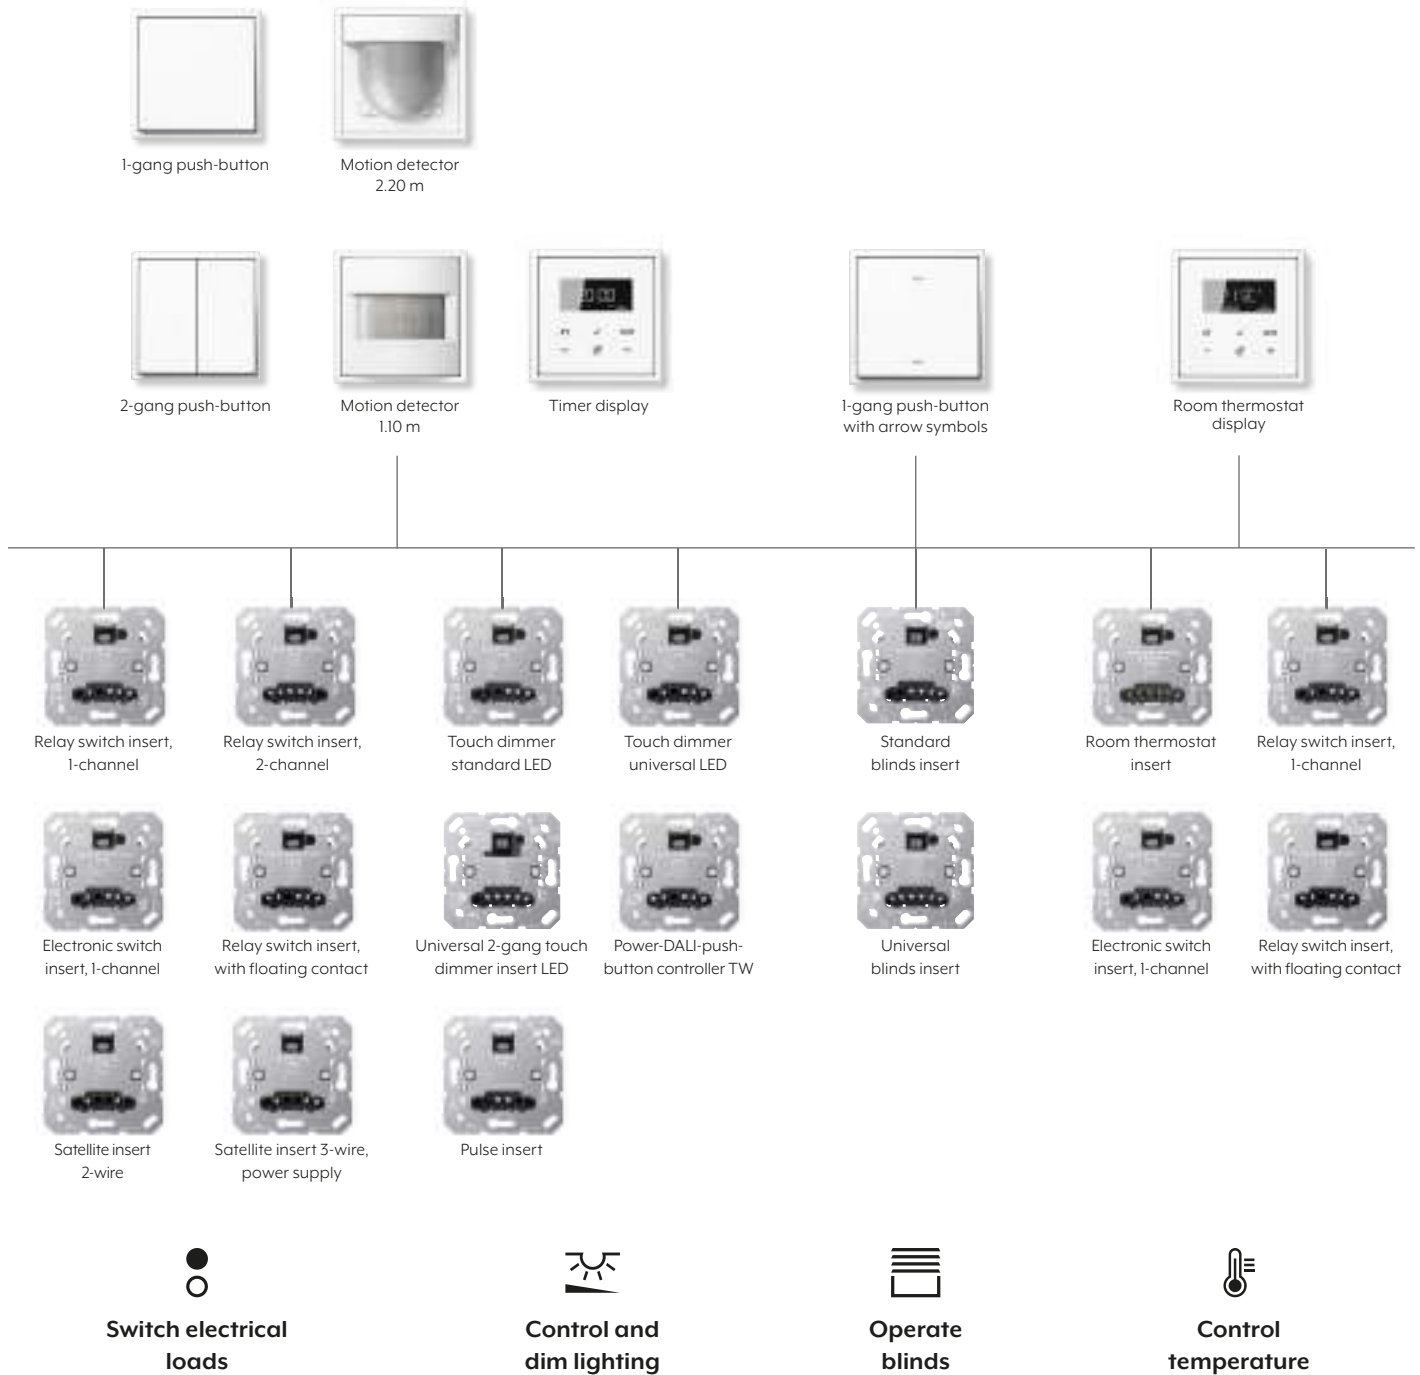

LB Management

JUNG LB Management is the system for lighting and automatic shading control. Using the combination of various inserts and covers, the modular system provides a needs-based and easy to use solution for almost every desired function.

When retrofitting existing installations, individual components (always insert plus cover) can also be replaced by new devices from LB Management and the others can continue to be used.

OVERVIEW OF LB MANAGEMENT

Simply start and extend conveniently. With the LB Management system, users remain flexible. You can easily start with an LB Management 1-gang push-button and decide to add covers later that offer more convenience, such as the timer display. The covers from the LB Management system can be freely combined with the covers of the A, LS and CD ranges.

LB Management push-button 1-gang

for inserts "blinds" ref.-no.: 1730 JE and 1731 JE
 for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE, 1711 DE, 1713 DSTE, 1720 NE, 1723 NE, 1708 IE

Intended use

- Manual operation of Venetian blinds, shutters, awnings or lighting
- Operation with system insert for switching, dimming, blind, with pulse insert or satellite insert 3-wire

Product characteristics

- Activation of Venetian blinds, shutters, awnings, with blinds insert
- Switching and dimming of lighting, with switch / dimmer or pulse insert
- Ventilation position of the blind/shutter can be saved, with blinds insert
- Switch-on brightness of lighting can be saved, with dimmer insert and DALI push-button controller

A labelling request in the GRAPHIC TOOL must be submitted together with the order: jung.group/gt
 Subsequent labelling of the buttons is not possible.

LB Management timer display

for inserts "blinds" ref.-no.: 1730 JE and 1731 JE
 for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE, 1711 DE, 1713 DSTE, 1723 NE

Intended use

- Manual and time-controlled operation of Venetian blinds, shutters, awnings or lighting
- Operation with system insert for switching, dimming, blind or satellite insert 3-wire

Product characteristics

- Real glass front
- 6 sensor buttons
- Current time can be saved as switching time, quick programming
- Automatic summer/winter time changeover, can be switched off
- Switching at sunrise and/or before sunset (astro function) adjustable for 18 countries
- Astro time shift for sunrise and sunset
- Disabling function
- Display switches off after 2 minutes, permanent indication of the current time possible
- Activation of Venetian blinds, shutters, awnings, with blinds insert
- Programming of one up time and one down time each for the parts of the week Mo-Fr and Sa+Su
- Ventilation position of the blind/shutter can be saved, with blinds insert
- Switching and dimming of lighting, with switch or dimmer insert
- Programming of two memory areas with one switch-on and one switch-off time each for the parts of the week Mo-Fr and Sa+Su
- Switch-on brightness of lighting can be saved, with dimmer insert and DALI push-button controller

Motion and presence detector

with integrated relay switch

including IR remote control ref.-no.: DWPM FB IR K

Product characteristics

- 2-point light control
- Functions adjustable with IR remote control
- Restriction of the detection field by switching off individual sensors or push-on cover
- Operation with IR remote control, 2-wire extension or installation button
- Teach function for adjustment of the brightness threshold in combination with IR remote control
- Switch-off warning
- Short-time operation, e.g. to activate acoustic signal transmitters
- Display LEDs
- Presence simulation
- Function as twilight switch
- Dynamic run-on time
- Extension of the detection area through parallel switching of multiple devices

Ref.-no.

- white **DWPM K 360 WW**
- aluminium (lacquered) **DWPM K 360 AL**

Technical data

Rated voltage:	AC 110 ... 230 V ~
Mains frequency:	50/60 Hz
Detection angle:	360°
Dimensions (Ø x H):	103 x 66 mm
Mounting height:	3.00 m
Detection range:	Ø approx. 20 m
Sensitivity:	25 ... 100 %
Brightness setting:	approx. 5 ... 2,000 lx (and daytime operation)
Run-on time:	approx. 10 s ... 30 min
Short-time operation	
Pulse duration:	approx. 0.5 s
Pulse interval:	approx. 3 s
Connected load at AC 230 V ~ and 35 °C	
Incandescent lamps:	2300 W
HV halogen lamps:	2000 W
Electronic transformers:	1500 W
Inductive transformers:	1000 VA
HV LED lamps:	typical 400 W
Fluorescent lamps non-compensated:	920 VA
Capacitive load:	690 VA (560 µF)

white

Motion detector 240°, surface-mounted

Intended use

- Automatic switching of lighting depending on the thermal movement and ambient brightness
- Wall installation; adapter for corners and adapter for surface-mounted cable installation included
- Surface mounting in interiors and exteriors

Product characteristics

- Passive infra-red sensor
- Protected against water splashes and dust
- Undercrawling protection
- Brightness threshold adjustable
- Run-on time adjustable
- Parallel connection of multiple motion detectors possible
- Screen for limiting the detection area

Ref.-no.

- **BM 240 S1A WW**
- **BM 240 S1A SW**

white (similar RAL 9010)
black (similar RAL 9005)

Technical data

Recommended mounting height:	2 m
Mounting height:	1.8 ... 4 m
Detection angle horizontal:	240°
Detection angle vertical:	180°
Adjusting possibilities	
Rotating:	160° horizontal
Range, direct approach:	approx. 5 m
Range, tangential approach:	approx. 12 m
Switching zones:	276
Brightness setting:	approx. 2 ... 2,000 lx
Run-on time:	approx. 10 s ... 15 min
Rated voltage:	AC 220 ... 240 V ~, 50/60 Hz
Degree of protection:	IP54
Protection class:	II
Switching capacity	
Incandescent lamps:	1000 W
LV halogen lamps with	
inductive transformers:	1000 VA
electronic transformers:	1000 W
Fluorescent lamps	
non-compensated:	500 W
parallel compensated:	500 W
HV LED lamps:	max. 350 W
Capacitive load:	132 µF
Dimensions (W x H x D):	84 x 89 x 90 mm
Ambient temperature:	-20 ... +50 °C

LB Management room thermostat display

for room thermostat insert ref.-no.: 1790 RTR
 for switch inserts ref.-no.: 1701 SE, 1701 PSE, 1704 ESE

Intended use

- Manual and time-controlled regulation of the room temperature
- Operation with system insert for switching or room temperature control

Product characteristics

- Real glass front
- 6 sensor buttons
- Timer with three memory areas
 Comfort and ECO time for Mo-Fr and Sa-Su in each memory area
- Setting a comfort, ECO, cooling and frost protection temperature
- Current time can be saved as switching time, quick programming
- Automatic summer/winter time changeover, can be switched off
- Illuminated segment display for easy reading
- Operating lock
- Optimised heating up (temperature is reached at the set time), can be switched off
- Adaptation to valves (normally open or normally closed)
- Cooling mode possible (optimised for heat pumps)
- Supports internal and external temperature sensor
- Temperature drop detection (call-up of frost protection temperature when window is open)
- Offset adjustment (correction value for measured temperature)
- Controller output working method: pulse width modulation (PWM) or two-point
- Valve protection function (once a week opening and closing of valve, on Saturdays at 11 a.m.)
- Interrupts the heating process after 60 minutes for 5 minutes
- Heating / cooling, switch-over via insert input
- Display switches off after 2 minutes, permanent indication of set/actual temperature or current time possible

white	TR D LS 1790 WW
black	TR D LS 1790 SW

External temperature sensor, ref.-no.: FF NTC, see page 151

Standard rotary dimmer LED

incremental control without end position
without satellite input

- Device works according to the leading edge phase control or trailing edge phase control principle
- Automatic setting of the dimming principle suitable for the load
- Device can be operated without neutral conductor
- Switch-on via bulb-preserving soft start
- Switch-on with last brightness or saved switch-on brightness
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection

Ref.-no.

1730 DD

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Connected load at 25 °C	
Incandescent lamps:	20 ... 210 W
HV halogen lamps:	20 ... 210 W
Electronic transformers:	20 ... 210 W
Electronic transformers with LV LED:	typical 20 ... 60 W
Inductive transformers:	20 ... 210 VA
Inductive transformers with LV LED:	typical 20 ... 60 VA
Dimmable HV LED lamps:	typical 3 ... 60 W

Rotary dimmer universal LED

incremental control without end position
with satellite input

- Device works according to the leading edge phase control or trailing edge phase control principle
- Automatic or manual setting of the dimming principle suitable for the load
- Device can be operated without neutral conductor
- Switch-on via bulb-preserving soft start
- Switch-on with last brightness or saved switch-on brightness
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Connection of satellite units possible
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection
- Key card function

Ref.-no.

1731 DD

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Connected load at 25 °C	
Incandescent lamps:	20 ... 420 W
HV halogen lamps:	20 ... 420 W
Electronic transformers:	20 ... 420 W
Electronic transformers with LV LED:	typical 20 ... 100 W
Inductive transformers:	20 ... 420 VA
Inductive transformers with LV LED:	typical 20 ... 100 VA
Dimmable HV LED lamps:	typical 3 ... 100 W

Operating mode LED trailing edge phase control: Rated power for HV LED lamps, typ. 3 ... 400 W, electronic transformers with LV LED typ. 20 ... 200 W.

Rotary satellite insert 3-wire

- Extension operation for dimmers ref.-no.: 1731 DD, 1711 DE, 1724 DM, UD 1755 REG

Ref.-no.

1733 DNE

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz

Rotary dimmer insert 100 – 1000 W

with 2-way push switch

- Dimming method: trailing edge phase control
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection
- Satellite switching possible in combination with 2-way switch

Ref.-no.

211 GDE

Technical data

Rated voltage:	AC 230/240 V ~
Mains frequency:	50 Hz
Connected load at 25 °C	
Incandescent lamps:	100 ... 1000 W
HV halogen lamps:	100 ... 1000 W

Speed regulator

incremental control without end position
with satellite input

- Speed controller for regulating the speed of single-phase motors e.g. induction motors or shaded pole motors
- Device works according to the leading edge phase control principle
- Device can be operated without neutral conductor
- Switch-on via soft start to maximum speed
- Basic speed can be saved permanently
- Connection of satellite units possible
- Electronic short-circuit protection with permanent switch-off after 100 ms
- Electronic over-temperature protection

Ref.-no.

1735 DS

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Power loss:	max. 4 W
Switching current:	60 mA ... 1.8 A

Rotary controller 1-10 V

- Switching and brightness setting for lamps with operating devices with 1-10 V interface
- Basic brightness can be set
- Short-circuit protection of switching contact with integrated fuse

Ref.-no.
240-10

Technical data

Rated voltage:	AC 230/240 V ~
Mains frequency:	50/60 Hz
Switching current at AC 230 / 240 V ~	
Ohmic:	6 A
Control voltage:	0.7 ... 12 V
Control current:	max. 50 mA

DALI rotary controller TW

DALI-2 single-master

- Brightness setting for luminaires with DALI interface
- Setting of colour temperature for luminaires with DALI Device Type 8 for tunable white acc. to IEC 62386-209

Ref.-no.
1740 DSTE

Technical data

(external DALI power supply acc. to IEC 62386-101 required)	
Colour temperature setting:	2,000 ... 10,000 K

Power DALI rotary controller TW

DALI-2 single-master

- Brightness setting for luminaires with DALI interface
- Setting of colour temperature for luminaires with DALI Device Type 8 for tunable white acc. to IEC 62386-209
- The Power DALI rotary controller TW supplies the control current for up to 28 DALI devices.

Ref.-no.
1741 DSTE

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Permitted bus current:	max. 250 mA
Guaranteed bus current:	56 mA
Colour temperature setting:	2,000 ... 10,000 K
Number of DALI devices:	max. 28

DALI-2 rotary controller TW

multi-master capable

- Brightness setting for luminaires with DALI interface
- Setting of colour temperature for luminaires with DALI Device Type 8 for tunable white acc. to IEC 62386-209
- Rotary controller (input device) for higher-level DALI-2 controllers

Ref.-no.
1745 DSTE

Technical data

(external DALI power supply acc. to IEC 62386-101 required)	
Colour temperature setting:	2,000 ... 10,000 K

Power DALI-2 rotary controller TW

multi-master capable

- Brightness setting for luminaires with DALI interface
- Setting of colour temperature for luminaires with DALI Device Type 8 for tunable white acc. to IEC 62386-209
- Rotary controller (input device) for higher-level DALI-2 controllers
- DALI-2 application controller with integrated bus power supply for up to 26 DALI devices

- Parallel switching of up to 4 power DALI rotary controllers with the option of supplying up to 104 DALI devices

Ref.-no.
1746 DSTE

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Permitted bus current:	max. 250 mA
Guaranteed bus current:	52 mA
Colour temperature setting:	2,000 ... 10,000 K
Number of DALI devices:	max. 26
Number of active rotary controllers:	max. 4

DALI transformer for LV halogen lamps

- No-load protection
- Electronic short-circuit protection
- Electronic overload protection
- Electronic over-temperature protection

Ref.-no.
D SNT 105

Technical data

Rated capacity:	35 ... 105 W
Rated voltage:	AC 230/240 V ~
Mains frequency:	50/60 Hz
Output voltage:	11.5 V eff. ~ 40 kHz
Dimensions:	170 x 44 x 34 mm

Dimmer mini universal LED

with satellite input

- Operation takes place with a 2- or 3-wire satellite insert, rotary satellite insert or push-button with 1-way NO contact
- Device works according to the leading edge phase control or trailing edge phase control principle
- Automatic or manual setting of the dimming principle suitable for the load
- Device can be operated without neutral conductor
- Switch-on via bulb-preserving soft start
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection

Ref.-no.
1724 DM

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Connected load at 25 °C	
Incandescent lamps:	20 ... 210 W
HV halogen lamps:	20 ... 210 W
Electronic transformers:	20 ... 210 W
Electronic transformers with LV LED:	typical 20 ... 50 W
Inductive transformers:	20 ... 210 VA
Inductive transformers with LV LED:	typical 20 ... 50 VA
Dimmable HV LED lamps:	typical 3 ... 50 W
With setting "LED trailing edge phase control" the max. connection power for HV LED lamps and electronic transformers with LV LED doubles.	
Dimensions (Ø x H):	48 x 19.5 mm

Universal dimmer LED, built-in

with satellite input

- Mounting in false ceilings
- Operation takes place with a 2- or 3-wire satellite insert, rotary satellite insert or push-button with 1-way NO contact
- Device works according to the leading edge phase control or trailing edge phase control principle
- Automatic or manual setting of the dimming principle

suitable for the load

- Device can be operated without neutral conductor
- Switch-on via bulb-preserving soft start
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection

Ref.-no.

1724 DEB

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Connected load at 25 °C	
Incandescent lamps:	20 ... 210 W
HV halogen lamps:	20 ... 210 W
Electronic transformers:	20 ... 210 W
Electronic transformers with LV LED:	typical 20 ... 50 W
Inductive transformers:	20 ... 210 VA
Inductive transformers with LV LED:	typical 20 ... 50 VA
Dimmable HV LED lamps:	typical 3 ... 50 W

With setting "LED trailing edge phase control" the max. connection power for HV LED lamps and electronic transformers with LV LED doubles.

Universal dimmer LED

rail mounting device, 2 rail units

- Operation takes place using the buttons, 2- or 3-wire satellite insert, rotary satellite insert or push-button with 1-way NO contact
- Device works according to the leading edge phase control or trailing edge phase control principle
- Automatic or manual setting of the dimming principle

suitable for the load

- Switch-on via bulb-preserving soft start
- Switch-on brightness can be saved permanently
- Minimum brightness can be saved permanently
- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection

Ref.-no.

UD 1755 REG

1-channel

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Connected load at 25 °C	
Incandescent lamps:	20 ... 420 W
HV halogen lamps:	20 ... 420 W
Electronic transformers:	20 ... 420 W
Electronic transformers with LV LED:	20 ... 100 W
Inductive transformers:	20 ... 420 VA
Inductive transformers with LV LED:	20 ... 100 VA
Dimmable HV LED lamps:	typical 3 ... 100 W

Operating mode LED trailing edge phase control: Rated power for HV LED lamps, typ. 3 ... 400 W, electronic transformers with LV LED typ. 20 ... 200 W.

Amplifier LED

rail mounting device, 2 rail units

- Power extension of the listed dimmers (ref.-no.: UD 1755 REG, 1730 DD, 1731 DD, 1710 DE, 1711 DE, 1712 DE, FM UD 20250 UP, FM UD 5500 REG, FM UD 420250 REG, 3901 REGHE, 3902 REGHE, 39004 1S R)
- Connection of several amplifiers to a single dimmer

- The total power of the connected loads is divided between the dimmer and amplifiers
- Operation using upstream dimmer
- Electronic over-temperature protection

Ref.-no.

ULZ 1755 REG

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz

Permissible load depends on dimmer, operating mode and type of load. See operating instructions.

Compensation module LED

- Use in combination with JUNG Tronic dimmers or universal dimmers in trailing edge phase control mode which are operated with dimmable HV LED lamps (ref.-no.: 1224 LED UDE, 1252 UDE, 1710 DE, 1711 DE, 1712 DE, 1724 DM, 1724 DEB, 1730 DD, 1731 DD, 211 GDE, 225 TDE, 254 UDIE1, 3901 REGHE, 3902 REGHE, 39004 1S R, 824 TDW, FM UD 20250 UP, FM UD 420250 REG, FM UD 5500 REG, UD 1255 REG, UD 1755 REG, ULZ 1755 REG, UDS 4 REGHE)

- Use in combination with illuminated switches which are operated with dimmable HV LED lamps

The module is used to:

- improve the dimming behaviour of dimmers which are not optimised for HV-LED lamps
- to avoid that HV LED lamps which are connected to a dimmer glow when switched off
- to avoid that HV LED lamps which are connected to a switch with illumination (up to 3 mA) glow when they are switched off

Ref.-no.

KM LED 230 U

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Power loss:	max. 2 W
Dimensions (W x H x D):	43 x 11.5 x 28.5 mm

Relay station

Relay station universal, 8-gang

rail mounting device, 8 rail units
with manual electronic operation and LED status indication
8 1-way NO contacts

- Operation by means of sensor modules, push-button modules, or unlit installation buttons
- Switching operation
- Push-button operation
- Blind operation with slat adjustment
- Mixed operation of switching, push-button and blind control is possible.
- Central switching function All On, All Off
- Parallel switching of two relay stations possible

Ref.-no.

RS 8 REGHE

Technical data

Rated voltage:	AC 230/240 V ~, 50/60 Hz
Number of control units	
Sensor module (ref.-no. SM 1608):	max. 4 (also when relay/dimming stations are connected in parallel)
Push-button module 24 V AC/DC (1-way NO contact):	depending on push-button module, consider current consumption
Push-button module (ref.-no. 4008 TSM):	max. 4 (also when relay/dimming stations are connected in parallel)
Load outputs A1 ... A8	
Contact type:	floating 1-way NO contact (μ contact)
Breaking capacity per load output:	AC 250 V ~ / 16 AX
Switching current, load outputs:	Σ 80 A
Switching current neighbouring load outputs:	Σ 20 A
Loads per output	
Ohmic load:	3000 W
Capacitive load:	16 A / max. 140 μ F
Blind / Fan motors:	1380 VA
Switch-on current:	max. 800 A (200 μ s) max. 165 A (20 ms)
Lamp loads	
Incandescent lamps:	3000 W
HV halogen lamps:	2500 W
LV halogen lamps with electronic transformers:	1500 W
inductive transformers:	1200 VA
Fluorescent lamps non-compensated:	1000 W
parallel compensated:	1160 W / 140 μ F
lead-lag circuit:	2300 W / 140 μ F
Switch-on time, blinds operation:	2 min

Dimming station JUNG bus

LED universal dimming station 4-gang

rail mounting device, 8 rail units

- Electronic short-circuit protection with permanent switch-off after 7 seconds at the latest
- Electronic over-temperature protection
- Integrated memory function for each channel (storing of switch-on brightness value)
- Switching off by dim-down function
- Increase in output power possible through parallel switching of multiple outputs
- Special connection for hotel card switch
- Central switching function All On, All Off
- Parallel connection of two dimming stations or one dimming and one relay station possible
- Automatic setting of the dimming principle suitable for the load

Ref.-no.

UDS 4 REGHE

Technical data

Rated voltage:	AC 230/240 V ~, 50/60 Hz
Number of control units	
Sensor module (ref.-no. SM 1608):	max. 4 (also when relay/dimming stations are connected in parallel)
Push-button module (ref.-no. 4008 TSM):	max. 4 (also when relay/dimming stations are connected in parallel)
Push-button module 24 V AC/DC (1-way NO contact):	depending on push-button module, consider current consumption
Connected load per channel	
Incandescent lamps:	20 ... 150 W
HV halogen lamps:	20 ... 150 W
Electronic transformers:	20 ... 150 W
Inductive transformers:	20 ... 150 VA
Dimmable HV LED lamps:	typical 3 ... 30 W

Max. load for outputs connected in parallel is limited to 80 %.

Sensor module (JUNG bus)

for the connection of relay station (ref.-no. RS 8 REGHE) and dimming station (ref.-no. UDS 4 REGHE)
Only in combination with frames of the LS range and FLAT DESIGN.

Product characteristics

- Up to 16 load outputs of the relay or dimming station can be controlled
- Switching, push-button, dimming, blind
- Light scenes: up to 4 light scenes per control point can be freely configured
- Central function: all assigned load outputs are switched on/off centrally
- Free assignment of the sensor surfaces to the load outputs, central functions and light scenes
- Settings can be changed
- LEDs can be used as feedback and as floor pilot light
- Feedback of switching states on all connected sensor modules
- LED brightness adjustable in 3 stages (100 %, 50 %, OFF)
- Up to 4 sensor modules can be connected to a single relay/dimming station, even with stations connected in parallel
- Cloning: transfer of a set assignment to another sensor module
- If mains power fails, assignments are retained
- Simple installation via 2-wire cable
- Labelling possible with JUNG GRAPHIC TOOL > (www.jung-group.com > Service)

Ref.-no.

SM 1608

Technical data

Power supply:	DC 24 V SELV (via relay or dimming station)
Current consumption:	max. 20 mA (all LEDs on)
Inscription field (W x H):	68.5 x 68.5 mm

Push-button module (JUNG bus)

for the connection of relay station (ref.-no. RS 8 REGHE) and dimming station (ref.-no. UDS 4 REGHE)
 Adapter frames are included in delivery:
 ref.-no. LS 4 AR for LS range (pre-mounted) and ref.-no. CD 4 AR for CD range.
 AS / A ranges without adapter frame.

Product characteristics

- 8 channels of the relay station can be controlled: switching, push-button, dimming, blinds
- 16 channels of 2 parallel-wired relay stations can be controlled in combination with push-button extension module ref.-no.: 4094 TSEM
- All station channels are switchable in delivery state
- Central function: all selected station channels are controlled centrally
- Light scenes: up to four light scenes can be set freely
- Push-buttons can be assigned according to cover kit
- Programming without additional tools
- Free assignment of the groups to the channels
- Red LED as status indicator (can be switched off)
- Blue orientation LED (can be switched off)
- Status feedback of the switching states to connected push-button modules and sensor modules
- Up to 4 push-button modules with max. 4 extension modules can be connected to single or parallel connected relay/dimming stations
- Cloning of modules: transfer the assignment of one module to further modules
- Cloning of push-button modules with extension module is possible
- Simple installation via 2-wire cable

Ref.-no.
4008 TSM

Technical data

Power supply: DC 24 V SELV (via relay or dimming station)
 Current consumption: max. 20 mA (all LEDs on)

Push-button extension module

for the extension of up to 8 additional push-buttons for the push-button module ref.-no. 4008 TSM
 preferred installation: vertical
 Adapter frames are included in delivery:
 ref.-no. LS 4 AR for LS range (pre-mounted) and ref.-no. CD 4 AR for CD range.
 AS / A ranges without adapter frame.
 8 red LED: status indication

Ref.-no.
4094 TSEM

Decoupling relay

If more than one motor should be connected to a blinds insert or a mechanical blind switch/push-button, a decoupling relay is required for electrical isolation; one relay for two motors.

Ref.-no.
TR-S

Technical data	
Rated voltage:	AC 230 V ~, 50 Hz
Switching capacity:	4 A, AC 230 V ~ cos φ ≥ 0.8 ind.

Decoupling relay for rail mounting

rail mounting device, 2.5 rail units

If more than one motor should be connected to a blinds insert or a mechanical blind switch/push-button, a decoupling relay is required for electrical isolation; one relay for two motors.

Ref.-no.
TR-S REG

Technical data	
Rated voltage:	AC 230 V ~, 50 Hz
Switching capacity:	4 A, AC 230 V ~ cos φ ≥ 0.8 ind.

Decoupling relay, flush-mounted

If more than one motor should be connected to a blinds insert or a mechanical blind switch/push-button, a decoupling relay is required for electrical isolation; one relay for two motors.
Decoupling relay for flush-mounting in wall box with dimensions according to DIN 49073 (deep wall box recommended).

Ref.-no.
TR-SUP

Technical data	
Rated voltage:	AC 230 V ~, 50 Hz
Switching capacity:	4 A, AC 230 V ~ cos φ ≥ 0.8 ind.

Weather station

rail mounting device, 6 rail units

In connection with the digital combi sensor WS10 KS and the power supply unit WSSV10, the weather station WSK100 REG measures brightness, wind intensity and rain. Based on brightness and wind intensity, the station controls a connected shutter control system independently for the east, south and west sides of a house.

Product characteristics

- Independent outputs for the shutters of the east, south and west facade of a house
- Separately adjustable shading function for the east, south and west facade
- Presetable common limit value for the wind alarm for the three house facades
- Precipitation detection with switched output, e.g. for the control of skylights
- Standard shutter running time of 2.5 minutes in sun protection mode can be shortened independently for each facade
- Monitoring of combination sensor connection cable with alarm function and message display
- Operation with additional power supply (ref.-no.: WSSV 10)

Ref.-no.

WSK 100 REG

Technical data

Supply voltage: AC 24 V ~ ± 15 %

Power supply AC 24 V ~

for weather station ref.-no.: WSK 100 REG and for Combi sensor ref.-no.: WS 10 KS rail mounting device, 4 rail units

Ref.-no.

WSSV 10

Technical data

Rated voltage: AC 230 V ~, 50/60 Hz
Output current: max. 1 A
Output voltage: AC 24 V ~

Combi sensor

For connection to weather station. Measures wind speed, precipitation and brightness for three directions.

The combi sensor needs 24 V AC for operation. The necessary power can be supplied by the power supply unit ref.-no.: WSSV 10.

Ref.-no.

■ WS 10 KS

Technical data

Power supply
Sensor unit (incl. heating): AC 24 V ~ ± 15 %, 50/60 Hz
Max. power consumption: 600 mA

Rain sensor

- Serpentine-shaped sensor surface detects wetting due to precipitation.
- 2-way relay remains switched on until the sensor is dry again. For at least 10 minutes.
- Integrated heater speeds up the drying of the sensor surface and melts snow and ice.
- Floating 2-way contact
- Direct connection to universal blinds insert

(ref.-no. 1731 JE) possible

Ref.-no.

■ RW 95

Technical data

Rated voltage: AC 230 V ~, 50/60 Hz
Current consumption: 15 mA (with preheating)
Power consumption: max. 4.5 W (incl. auxiliary heating)
Relay output
dry: contact open
rain: contact closed
Relay switching capacity: max. 1500 W (resistive load)
Relay contact, rating: (μ) 6 A / AC 250 V ~

Wind sensor with converter

- The converter and wind sensor are used to protect a blind/shutter against destruction due to excessively strong winds. The blind/shutter is moved to a safe end position and locked there until the wind drops below the set wind speed value.
- The converter is operated together with a Universal blinds insert (ref.-no. 1731 JE) or binary inputs of the KNX system.
- 8 wind speeds can be set

- The wind alarm is triggered 15 seconds after the set wind speed threshold value is exceeded
- The connection cable between the wind sensor and the converter must always be a shielded cable. Use either a 2-wire cable or a 4-wire cable, e.g. Siemens MSR control LSYCY or telephone cable J-Y(St)Y 2x2x0.6. Connection cable approx. 3 m pre-assembled. Can be extended to max. 50 m.

Ref.-no.

black (similar RAL 9005)

■ 132 WS

Converter

(spare part)
for connection of wind sensor ref.-no.: 132 WS

Ref.-no.

132 U

Technical data

Rated voltage: AC 230 V ~, 50 Hz
Switching current: max. 2 A
Contact type: floating 1-way NO contact (μ contact)
Switch-on delay: approx. 15 s
Switch-off delay: approx. 15 min

Awning control, AeroTec 04

The AeroTec timer may be used to operate sun protection systems **only**. The AeroTec timer is pre-programmed ex works with current date and time (CET) settings and operates sun protection systems on the basis of sunlight intensity and wind speed. The AeroTec timer can be operated manually at any time. The device runs on battery power, meaning it can even be programmed if the operating device has been removed, as the display does not disappear.

- Controller for awnings
- 15 languages (display)
- Ex works pre-programmed
- Sensors can be connected
- Manual control always possible
- Additional switching time
- Adjustable inside position
- Cloth stretching function

Ref.-no.

Thermoplastic (breakproof) high-gloss white

AT 04 WW

Technical data

Rated voltage: AC 230/240 V ~, 50/60 Hz
 Switching current: 5 A / 250 V AC $\cos \phi = 1$
 Switching capacity: max. 1 motor 1000 W
 (If more than one motor is controlled, they must be decoupled by decoupling relays).
 Battery type: 1 button cell CR 2032 (included)
 When cell is replaced, values previously set will be preserved.

Sunlight / wind sensor

for connection to awning control "AeroTec 04", ref.-no.: AT 04 WW
 The wind sensor should be fitted to the roof or house wall. It must be installed at a position suitable for wind intensity measurements. Do not install at the side sheltered from the wind.

Ref.-no.

AR 04

Rain sensor

for connection to awning control "AeroTec 04", ref.-no.: AT 04 WW

- Serpentine-shaped sensor surface detects wetting due to precipitation.
- 2-way relay remains switched on until the sensor is dry again. For at least 10 minutes.
- Integrated heater speeds up the drying of the sensor surface and melts snow and ice.

Ref.-no.

■ **RW 95**

Technical data

Rated voltage: AC 230 V ~, 50/60 Hz
 Current consumption: 15 mA (with preheating)
 Power consumption: max. 4.5 W (incl. auxiliary heating)
 Relay output
 dry: contact open
 rain: contact closed
 Relay switching capacity: max. 1500 W (resistive load)
 Relay contact, rating: (μ) 6 A / AC 250 V ~

Room thermostat insert

with sensor connection
for covers JUNG HOME ref.-no.: BT .. 1791 ..
for covers LB Management ref.-no.: .. 1790 D ..
for covers KNX RF ref.-no.: .. 1091 1ST RF ..,
.. 1092 1ST RF ..

- Switching of electric underfloor heating systems and electrothermal valve drives
- Pulse width modulation (PWM) or two-point control (on/off)
- External sensor (ref.-no.: FF NTC) can be connected
- Input for switching to cooling mode
- Interrupts the heating process after 60 minutes (overheating protection of a heater)

Ref.-no.

1790 RTR

Technical data

Rated voltage:	AC 230 V ~
Mains frequency:	50/60 Hz
Stand-by power depending on the cover:	approx. 0.1 ... 0.5 W
Switching current 230 V AC1:	10 mA ... 16 A
Connected load:	max. 3,600 W
Number of valve drives:	1 ... 10

JUNG HOME room thermostat displays see page 108

LB Management room thermostat displays see page 138

Room thermostats

ROOM THERMOSTAT IN LS 990 IN DARK

The JUNG room thermostats in the JUNG design offer heating or cooling mode, ECO mode and temperature drop detection. They also have an LED display and silent switching. They are operated using two-point control or pulse width modulation.

EASY TO USE

The rotary knob has a diameter of 42 millimetres and a reduced height. In this way, the room thermostats reflect the same design as the rotary dimmer covers.

CLEAR INDICATION

An LED shows the current state. If it is red, the heating is running. If it is lit blue, the system is cooling the building. If it is lit orange, the heating is in frost protection mode.

When users press the rotary knob, the heating system switches to frost protection mode. To set the comfort temperature, rotating the control unit is sufficient. The devices are thus suited to both heating and cooling. Three models therefore have internal temperature sensors. Furthermore, they have temperature drop detection and turn down the heating if, for exam-

ple, a window is opened. The FTR 231 model has an external temperature sensor that registers the temperature in combination with electric underfloor heating as well as an ECO mode (night reduction). With the exception of the RTR 230 model, the thermostats can either be operated using two-point control or pulse width modulation.

Room thermostat (1-way NC contact) 230 V

for covers ref.-no.: .. 1749 ..

Intended use

- Electronic room thermostat for controlling electrothermal valve drives for 230 V ~ (e.g. ref.-no.: TSA 230 NC WW)
- Room temperature control in enclosed areas
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Manually setting a comfort temperature
- Temperature limit of comfort temperature can be set
- Internal temperature sensor
- Noiseless switching
- Controller output working method: pulse width modulation (PWM)
- Operation with valve type "normally closed"
- Valve protection function (once a week opening and closing of valve)

Ref.-no.
RTR 230

Technical data

Rated voltage:	AC 230 V ~, 50/60 Hz
Connected load:	20 W
Stand-by power:	< 0.5 W
Temperature range:	approx. +5 ... +30 °C
Mounting height:	1.50 m
Number of valve drives:	1 ... 10
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +70 °C

Room thermostat (heating/cooling) 230 V

for covers ref.-no.: .. 1749 ..

Intended use

- Electronic room thermostat for controlling electrothermal valve drives for 230 V ~ (e.g. ref.-no.: TSA 230 NC WW)
- Room temperature control in enclosed areas
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Manually setting a comfort temperature
- Temperature limit of comfort temperature can be set
- Manually switching off the temperature control
- Cooling mode possible (optimised for heat pumps)
- Input terminal for activation of reduction temperature (ECO) via central clock
- Input terminal for activation of cooling via central control
- Manual activation of cooling
- Internal temperature sensor
- Frost protection function
- Noiseless switching
- Temperature drop detection (call-up of frost protection temperature when window is open)
- Controller output working method: pulse width modulation (PWM) or two-point
- Adaptation to valves (normally open or normally closed)
- Offset adjustment ± 3 °C (correction value for measured temperature)
- Valve protection function (once a week opening and closing of valve)
- Multi-colour status LED
- Continuous operation of LED possible

Ref.-no.
RTR 231

Technical data

Rated voltage:	AC 230 V ~, 50/60 Hz
Switching current:	max. 100 mA
Connected load:	20 W
Stand-by power:	< 0.5 W
Temperature range:	approx. +5 ... +30 °C
Mounting height:	1.50 m
Number of valve drives:	1 ... 10
Cable length:	max. 100 m
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +70 °C

Room thermostat (heating/cooling) 24 V

for covers ref.-no.: .. 1749 ..

Intended use

- Electronic room thermostat for controlling electrothermal valve drives for AC 24 V (e.g. ref.-no.: TSA 24 NC WW)
- Room temperature control in enclosed areas
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Manually setting a comfort temperature
- Temperature limit of comfort temperature can be set
- Manually switching off the temperature control
- Cooling mode possible (optimised for heat pumps)
- Input terminal for activation of reduction temperature (ECO) via central clock
- Input terminal for activation of cooling via central control
- Manual activation of cooling
- Internal temperature sensor
- Frost protection function
- Temperature drop detection (call-up of frost protection temperature when window is open)
- Controller output working method: pulse width modulation (PWM) or two-point
- Adaptation to valves (normally open or normally closed)
- Offset adjustment ± 3 °C (correction value for measured temperature)
- Valve protection function (once a week opening and closing of valve)
- Multi-colour status LED
- Continuous operation of LED possible

Ref.-no.
RTR 241

Technical data

Rated voltage:	AC 24 V SELV (± 10%)
Mains frequency:	50/60 Hz
Switching current:	max. 1 A
Connected load:	max. 24 W
Stand-by power:	max. 0.1 W
Temperature range:	approx. +5 ... +30 °C
Mounting height:	1.50 m
Number of valve drives:	1 ... 5
Cable length:	max. 100 m
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +70 °C

Floor thermostat

for covers ref.-no.: .. 1749 ..

Intended use

- Electronic thermostat for controlling electric underfloor heating systems
- Floor temperature control in enclosed areas
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Manually setting a floor comfort temperature
- Temperature limit of comfort temperature can be set
- Manually switching off the temperature control
- Input terminal for activation of reduction temperature (ECO) via central clock
- External sensor (ref.-no.: FF NTC) included in the scope of delivery
- Frost protection function
- Feedback via status LED if external temperature sensor malfunctions
- Controller output working method: pulse width modulation (PWM) or two-point
- Interruption of continuous heating after one hour for 5 minutes
- Multi-colour status LED
- Continuous operation of LED possible

Ref.-no.
FTR 231

Technical data

Rated voltage:	AC 220 ... 240 V ~, 50/60 Hz
Switching current:	10 A
Temperature range:	approx. +5 ... +50 °C
Mounting height:	1.50 m
Connected load	
Ohmic load:	2300 W
Stand-by power:	max. 0.15 W
Cable length:	max. 100 m
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +70 °C

British standard products

The covers without visible screws compose a plane appearance.
The British Standard sockets are available for A 550 / A FLOW
and LS DESIGN.

BRITISH STANDARD SOCKET 13 A

in A 550 in white

BRITISH STANDARD SOCKET 5 A

in A FLOW in black

BRITISH STANDARD 2-GANG SOCKET 13 A, SWITCHABLE WITH INDICATOR LAMP

in LS DESIGN in stainless steel

JUNG provides British Standard components for typical BS wall boxes. The elaborated modular system enables the simple installation of cover, socket and design frame in a 1-gang or 2-gang version. High quality materials in the A and LS ranges or the full plate version achieve an elegant view.

SOCKET INSTALLATION

Sockets are the basis of every electrical installation. For a smooth and fast installation, JUNG supplies British sockets from the factory with the appropriate supporting frame.

For the installation of a 2-gang wall box in the British system, JUNG offers various 2-gang sockets with a large supporting frame. In combination with the design frames from the JUNG A 550, A FLOW and LS DESIGN, the electrical installation is given a high-quality appearance.

Combining JUNG products with the adapter frame

Ideal for renovations: JUNG technology with adapter frame. With this method, electricians can install versatile building technology, without extensive restoration work or a reconfiguration of the electrical installation under the plaster.

Installation for British Standard wall boxes

AS range – simple objectivity
for universal solutions

AS range

Push-button with lens in white

SCHUKO® socket in white

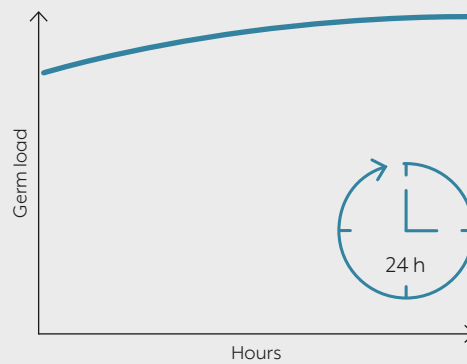

F40 push-button, 4-gang, in ivory

Rotary dimmer in ivory

The wide product palette of the AS range completely meets the requirements of private and commercial construction. The comprehensive range of applications includes all the technical possibilities of a modern, future-proof electrical installation.

CONVENTIONAL SURFACE

Germ load without SILVERPLUS® surface

SILVERPLUS® SURFACE

Germ load with SILVERPLUS® surface

The broad-spectrum effect of the antimicrobial material technology SILVERPLUS® includes fungi and enveloped viruses in addition to bacteria. In laboratory tests with four different bacteria and fungi as well as an enveloped virus, experts from

independent testing institutes established that the antimicrobial surface proactively inhibits the growth and reproduction of the test germs and significantly reduces the number of pathogens.

Colours and materials

Electronic timer, 230 V~, 1500 VA

The device is operated simply by pressing the button. After a
previously set time delay the timer switches off automatically.
The activated time delay can be stopped by pressing the
button again.

1-pole switch contact, with status LED, satellite operation
possible
incl. 1-gang frame with inscription field and labels for various
time periods

Ref.-no.

time delay 1 – 60 min.

Technical data

Specification IEC plug module

External connection:	IEC male, IEC 60169-2
Internal connection:	F female, IEC 60169-24
Impedance:	75 Ohm
Frequency range:	5 ... 2,400 MHz
Attenuation:	0.0 dB
Installation depth not considering cables	
Universal modular jack socket:	28 mm
IEC plug module:	30 mm
Use right angle plug.	
Consider bending radius. Ensure sufficient installation space.	

Triple-tone door signal

(with supporting frame, screw fixing only)
2 separate terminals for 2 or 3 tone signal
power supply: 8 ... 12 V AC or 8 ... 24 V DC, via external
power supply (SELV) e.g. ref.-no. NT 2405 VDC or
NT 2415 REG VDC
current consumption: approx. 150 mA

A range – exciting in shape,
colour and material

A range

A CREATION
with glass frame in champagne

A 550
in white

A VIVA
glass frame in white

A FLOW
in matt anthracite

The A range sets accents in every room. It is impressive with its clear design and selection of materials. All centre plates have the dimensions of 55 x 55 mm. The single to 5-gang frames can be fitted horizontally or vertically.

A range – modular system

The wide product palette of the A range meets all technical requirements in private and commercial construction. Lighting, blind and temperature control, door communication, multi-media control, JUNG HOME and KNX can all be implemented in one harmonious look. The JUNG modular system combines the inserts with the respective cover and design frame to form a functional unit.

Colours and materials

Duroplastic (scratch-proof), glossy

white	similar to RAL 9016	
black	similar to RAL 9005	

Thermoplastic (breakproof) high-gloss

Technical data

Specification IEC plug module	
External connection:	IEC male, IEC 60169-2
Internal connection:	F female, IEC 60169-24
Impedance:	75 Ohm
Frequency range:	5 ... 2,400 MHz
Attenuation:	0.0 dB
Installation depth not considering cables	
Universal modular jack socket:	28 mm
IEC plug module:	30 mm
Use right angle plug.	
Consider bending radius. Ensure sufficient installation space.	

Triple-tone door signal

(with supporting frame, screw fixing only)

2 separate terminals for 2 or 3 tone signal
power supply: 8 ... 12 V AC or 8 ... 24 V DC, via external
power supply (SELV) e.g. ref.-no. NT 2405 VDC or
NT 2415 REG VDC
current consumption: approx. 150 mA

Frame 28 mm structure height

for horizontal and vertical installation

This frame allows flush-mounted devices with a large installation depth to be installed in an existing flat wall box. The frame raises the device supporting frame from the wall to provide an additional 17 mm of installation depth.

CD range – decent colours
and an organic shape

CD range

The CD range is harmoniously matched in form, colour and function. The soft lines are underlined by the slight angularity of the rocker. Available in various colours made of plastic and variants made of metal. The centre plates have the dimensions of 67 x 67 mm. The single to 5-gang frames can be fitted horizontally or vertically.

CD range – modular system

The wide product palette of the CD range meets all technical requirements in private and commercial construction. Lighting, blind and temperature control, door communication, multimedia control, JUNG HOME and KNX can all be implemented in one harmonious look. The JUNG modular system combines the inserts with the respective cover and design frame to form a functional unit.

Colours and materials

Duroplastic (scratch-proof), glossy

ivory	similar to RAL 1013	
white	similar to RAL 9016	
brown	similar to RAL 8022	
grey	similar to RAL 7038	
light grey	similar to RAL 7035	
black	similar to RAL 9005	

Thermoplastic (breakproof) high-gloss

ivory	similar to RAL 1013	
white	similar to RAL 9016	
brown	similar to RAL 8022	
grey	similar to RAL 7038	
light grey	similar to RAL 7035	

Metal versions (anodised aluminium)

gold-bronze	
platinum	

Selected items are also available in other colours

orange	similar to RAL 2004	
green	similar to RAL 6029	
red	similar to RAL 3003	

CD 500 is available not only in the classic duroplastic version but also in a breakproof thermoplastic version. This means that the range also specifically meets the requirements of tenders for the public construction sector.

LS range – timeless switches
for every interior style

LS range

The LS range clearly shows its commitment to the classic square without compromises. The design based on the Bauhaus design has a timeless effect. In its reduction to the essential, this range relies on the quality of genuine materials that further emphasise the clarity of the shape. Narrow or wide frames round off the straight lines in style.

LS range – modular system

The wide product palette of the LS range meets all technical and design requirements in private and commercial construction. Lighting, blind and temperature control, door communication, multimedia control, JUNG HOME and KNX can all be implemented in one harmonious look. The JUNG modular system combines the inserts with the respective cover and design frame to form a functional unit.

Colours and materials

Duroplastic (scratch-proof), glossy

ivory	similar to RAL 1013

Technical data

Specification IEC plug module	
External connection:	IEC male, IEC 60169-2
Internal connection:	F female, IEC 60169-24
Impedance:	75 Ohm
Frequency range:	5 ... 2,400 MHz
Attenuation:	0.0 dB
Installation depth not considering cables	
Universal modular jack socket:	28 mm
IEC plug module:	30 mm
Use right angle plug.	
Consider bending radius. Ensure sufficient installation space.	

Centre plate for volume control (0 – 11):

Frame 28 mm structure height

**for horizontal and vertical installation
for LS range**

This frame allows flush-mounted devices with a large installation depth to be installed in an existing flat wall box. The frame raises the device supporting frame from the wall to provide an additional 17 mm of installation depth.

Note: Ensure sufficient clearance between the device and the bottom of the flush box (8 mm clearance according to VDE)

Les Couleurs® Le Corbusier

SWITCH IN 32090 ROUGE VERMILLON 31

The unique colour system “Polychromie Architecturale” from Le Corbusier still captivates today due to its remarkable combination capability and impressive colour depth. Exclusively throughout the world, JUNG is providing its classic LS 990 design in the 63 Les Couleurs® Le Corbusier colours.

Production with a system

The exclusive LS 990 range in the colours of Les Couleurs® Le Corbusier is hand-lacquered and made to order. Covers and frames form the basis for the paintable parts. Each item is ordered using its own reference number. Complete the item code with the respective three-digit JUNG colour code. Together these form the complete reference number. The hand-lacquered units are manufactured to order. The delivery time is ten weeks after receipt of order.

NRS LC 0834 ...

Pull cord push-button

screw fixing only, without claws
without frame

An emergency call can be triggered in the bathroom/WC via
an easily accessible pull cord. The pull cord push-button can
also be installed in the middle of the room on the ceiling so
that it is easily accessible for people in need of help. A red
lamp on the switch signals that the emergency call has been
triggered successfully.

Les Couleurs® Le Corbusier

■ **NRS LC 0834 ZT ...**

Emergency signal

screw fixing only, without claws
without frame

The emergency signal can e.g. be installed outside next to
the WC door or landing door. A triggered emergency call is
signalled visually by a red LED and acoustically by a buzzer,
90 dB(A). Both signals can, if required, be changed from
continuous light/continuous tone to flashing light/pulsing tone.
The floating relay contact (24 V / 2 A) can be used to trigger

external signalling devices.

Ref.-no.

matt lacquered

LS ZERO

LS ZERO is the flush advancement of the LS 990 classic switch. Masonry, dry wall or furniture installation – thanks to the planar installation, the control element connects closely with its installation location. Elegant in white, precious metal colours or the Le Corbusier colours.

Mounting types

FURNITURE INSTALLATION

After milling the cut-out, commercially available cavity wall boxes are used to install the desired insert, the LS ZERO frame and the cover flush with the surface. The drawing data are available for download at jung.group/lzero.

MASONRY

With this type of installation, the plastering adapter creates a material connection with the plaster. The use of the supplied plastering cover makes neat plastering easier. The installation is performed in commercially available flush-mounting boxes.

DRY WALL

The prerequisite is a double board layer in the drywall. Commercially available cavity wall boxes are used; the plastering adapter has the same height as a plasterboard and also here allows the form-fit and material locking with the surface.

LS 1912

MATT GRAPHITE BLACK WITH CYLINDRICAL TOGGLE LEVER

LS1912[®]

Based on the JUNG switches of the early years, the rocker switch LS 1912 gives the mechanics of the switch a completely new feel. The switchgear is designed so that the cover sits flush with the frame. Only the toggle lever stands out from the unit as a style element.

Metal designs

Aluminium AlMg1 natural, matt etched	
Stainless steel 1.4303 X4 CrNi 18-12 blasted with glass beads	
Dark (varnished aluminium)	
Chrome (chrome-plated metal)	
Brass CuZn37, bright, hand-brushed, 240 grain, clear varnish on both sides (corrosion protection)	

Matt snow white (varnished aluminium)	
Matt graphite black (varnished aluminium)	

* Les Couleurs® Le Corbusier

LS 1912 covers with cylindrical toggle lever are also available in Le Corbusier colours.

Information about the ordering process can be found on page 319, the 63 JUNG colour codes for Les Couleurs® Le Corbusier on pages 320/321.

1-gang toggle switch 10 AX / 250 V ~ (insert)

with screwless terminals for rigid wires up to 2.5 mm²
screw fixing only, without claws
depth of flush box (inner dimension): min. 43 mm

Key switch/push-button

delivery without locking plate
for profile half cylinder with total length of approx. 40 mm, e.g.
ref.-no.: 28, 28 G1
with screw terminals for rigid and flexible wires up to 2.5 mm²
with 1 inlet M 20 x 1.5 at the bottom, with PE terminal
aluminium housing 90 x 75 x 65 mm
colour of housing: silver-grey (similar RAL 7001), cover:
metallic anthracite

When using locking cylinder from other manufacturer, please consider, that the
cylinder has key access on only one side. (Otherwise water can get through the
cylinder into the switch housing. IP44 is thus not guaranteed.)

KNX System

Smart means communicating with each other. Sensors and actuators ensure intelligent control in a KNX system. We offer the right KNX solution for almost every function in the building. Lighting, shading, heating and air conditioning, security and multimedia: our KNX system covers all these areas and ensures smart automation.

LS TOUCH

KNX SWITCH/BLINDS ACTUATOR

SMART VISU SERVER

KNX SECURE

Effective protection with AES128 encryption and double protection: KNX IP Secure encrypts the transmission at network layer. KNX Data Secure encrypts and authenticates the data on the KNX bus line. JUNG KNX push-buttons in the universal version support KNX Secure.

KNX push-button F 10

The JUNG KNX push-button F 10 can be combined with covers and devices of the A, AS, CD and LS ranges. It can be integrated optimally into every interior and supports KNX Secure.

KNX PUSH-BUTTON F 10 UNIVERSAL

Rocker function 2-gang

The KNX F 10 push-button masters both the push-button function and the rocker function. The rocker function of the Standard version enables additional control possibilities such as dimming lamps. The push-button function in the Universal version enables full-surface

operation. The KNX push-button F 10 combines numerous functions in an elegant design. And fully encrypted: the KNX F 10 push-button communicates using KNX Data Secure if required. As soon as an update is available, installers update the push-buttons using the ETS Service app.

KNX push-button standard

Project design and commissioning with ETS5 or a more recent version

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- KNX medium: TP 256
- Operating concept (rocker or button) adjustable for each operating area
- Button evaluation (single-area operation or dual-area operation) adjustable
- One or two functions per operating area
- Integrated bus coupling unit
- One status LED per operating area – red
- KNX Data Secure compatible with ETS 5.7.3 or higher
- Can be updated with the ETS Service App

Technical data

KNX	
KNX medium:	TP 256
Security:	X-mode
Commissioning mode:	S-mode
Rated voltage:	DC 21 ... 32 V SELV
Current consumption KNX:	5.9 ... 8.2 mA
Connection, KNX:	connection terminal
Connection cable:	EIB-Y (St)Y 2x2x0.8
Protection class:	III
Ambient conditions	
Ambient temperature:	–5 ... +45 °C
Storage/transport temperature:	–25 ... +70 °C

KNX push-button universal

Project design and commissioning with ETS5 or a more recent version

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- KNX medium: TP 256
- Operating concept (rocker or button) adjustable for each operating area
- Button evaluation (single-area operation or dual-area operation) adjustable
- One or two functions per operating area
- Integrated bus coupling unit
- Alarm function, optional acknowledge by pressing any button
- Disabling function: Disabling or change function mode of single or all button functions
- Status LED brightness adjustable
- Measurement of room temperature
- One status LED per operating area – red, green or blue, adjustable
- Connection of a push-button extension possible
- Connection of installation buttons or reed contacts possible
- KNX Data Secure compatible with ETS 5.7.3 or higher
- Can be updated with the ETS Service App

Technical data

KNX	
KNX medium:	TP 256

KNX push-button F 40

The KNX F 40 push-buttons rely on large buttons for convenient handling, which can be created individually with the JUNG GRAPHIC TOOL. In the universal version, the KNX F 40 push-buttons are secure thanks to KNX Secure. The modules are design-dependent and must be ordered separately for the A, CD or LS ranges.

KNX universal push-button module

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- KNX medium: TP 256
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- Measurement of room temperature
- Temperature measurement optionally with internal device sensor and external sensor connected via communication object
- To be completed with cover kit
- Two red status LEDs per button
- One blue operation LED as orientation light and to indicate the programming status
- LED functions alarm message and reducing brightness can be adjusted separately
- Integrated bus coupling unit
- One, two or three functions per button
- Push-button function or rocker function, vertical or horizontal
- Disabling function: Disabling or change function mode of single or all button functions
- Connection for a push-button extension module, 1-4 gang
- KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
- Can be updated with the ETS Service App

KNX room controller display module

for cover kit 3-gang, ref.-no.: A 4093 TSA ..
can be extended by means of a push-button extension module, ref.-no.: 409.. TSEM

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Measurement and feedback control of the room temperature
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- All buttons can be assigned with push-button sensor functions or functions for controller operation.
- KNX medium: TP 256
 - Four red status LEDs
 - One blue operation LED as orientation light and to indicate the programming status
 - Integrated bus coupling unit
 - Connection for a push-button extension module, 1-4 gang
 - Integrated temperature sensor
 - Room temperature control with setpoint specification
 - Display of room or set temperature
 - Display of outdoor temperature – with external sensor, e.g. weather station
 - Display of time, in conjunction with KNX time encoder
 - Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
 - Push-button function or rocker function, vertical or horizontal
 - Fan coil application with up to 8 fan speeds and auto function
 - KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
 - Can be updated with the ETS Service App

KNX universal push-button module

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- KNX medium: TP 256
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- Measurement of room temperature
- Temperature measurement optionally with internal device sensor and external sensor connected via communication object
- To be completed with cover kit
- Two red status LEDs per button
- One blue operation LED as orientation light and to indicate the programming status
- LED functions alarm message and reducing brightness can be adjusted separately
- Integrated bus coupling unit
- One, two or three functions per button
- Push-button function or rocker function, vertical or horizontal
- Disabling function: Disabling or change function mode of single or all button functions
- Connection for a push-button extension module, 1-4 gang
- KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
- Can be updated with the ETS Service App

KNX room controller display module

for cover kit 3-gang, ref.-no.: .. 4093 TSA .. in the LS range
can be extended by means of a push-button extension module, ref.-no.: 409.. TSEM

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Measurement and feedback control of the room temperature
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- All buttons can be assigned with push-button sensor functions or functions for controller operation.
- KNX medium: TP 256
 - Four red status LEDs
 - One blue operation LED as orientation light and to indicate the programming status
 - Integrated bus coupling unit
 - Connection for a push-button extension module, 1-4 gang
 - Integrated temperature sensor
 - Room temperature control with setpoint specification
 - Display of room or set temperature
 - Display of outdoor temperature – with external sensor, e.g. weather station
 - Display of time, in conjunction with KNX time encoder
 - Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
 - Push-button function or rocker function, vertical or horizontal
 - Fan coil application with up to 8 fan speeds and auto function
 - KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
 - Can be updated with the ETS Service App

transparent

The 1, 2, 3 and 4-gang F 50 modules are available in the JUNG design alongside the corresponding 1 to 4-gang cover kits. You can choose a transparent or coloured design cover for the labelling field. The design frames of the A, AS, CD and LS ranges complete the concept.

KNX standard push-button module

Product characteristics

- KNX medium: TP 256
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- To be completed with cover kit
- Inscription field
- One red status LED for a pair of buttons
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Energy saving mode
- Integrated bus coupling unit
- Including transparent cover kit for operation on construction site without design covers

Product characteristics

- KNX medium: TP 256
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- One or two functions per button
- To be completed with cover kit
- Inscription field can be illuminated
- One status LED per button, red, green or blue, adjustable
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Brightness of status LED, operation LED and inscription field adjustable, can be changed during operation, e.g. during night times
- Measurement of room temperature
- Extension unit for room temperature controller
- Disabling function: Disabling or change function mode of single or all button functions
- Alarm function, optional acknowledge by pressing any button
- Energy saving mode
- Integrated bus coupling unit
- Connection for a push-button extension module, 1-4 gang
- Including transparent cover kit for operation on construction site without design covers
- KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
- Can be updated with the ETS Service App

KNX room temperature controller module 2-gang

including transparent cover and paper inlay with symbols

Product characteristics

All buttons can be assigned with push-button sensor
functions or functions for controller operation.

- KNX medium: TP 256
- Measurement of room temperature
- Room temperature control with setpoint specification
- Extension unit for room temperature controller
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- One or two functions per button
- Completion with cover kit 2-gang
- Inscription field can be illuminated
- Two red status LEDs per button – red, green or blue adjustable
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Brightness of status LEDs, operation LED and inscription field adjustable; switchable while in operation, e.g. during the night
- Disabling function: Disabling or change function mode of single or all button functions
- Alarm function, optional acknowledge by pressing any button
- Energy saving mode (for operation without controller function)
- Integrated bus coupling unit
- Connection for a push-button extension module, for extension with up to eight additional buttons

KNX standard push-button module

Product characteristics

- KNX medium: TP 256
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- To be completed with cover kit
- Inscription field
- One red status LED for a pair of buttons
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Energy saving mode
- Integrated bus coupling unit
- Including transparent cover kit for operation on construction site without design covers

KNX standard push-button module 1-gang

including transparent cover ref.-no.: CD 50 NA

KNX universal push-button module

Product characteristics

- KNX medium: TP 256
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- One or two functions per button
- To be completed with cover kit
- Inscription field can be illuminated
- One status LED per button, red, green or blue, adjustable
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Brightness of status LED, operation LED and inscription field adjustable, can be changed during operation, e.g. during night times
- Measurement of room temperature
- Extension unit for room temperature controller
- Disabling function: Disabling or change function mode of single or all button functions
- Alarm function, optional acknowledge by pressing any button
- Energy saving mode
- Integrated bus coupling unit
- Connection for a push-button extension module, 1-4 gang
- Including transparent cover kit for operation on construction site without design covers
- KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
- Can be updated with the ETS Service App

KNX universal push-button module 1-gang

KNX room temperature controller module 2-gang

including transparent cover and paper inlay with symbols

Product characteristics

All buttons can be assigned with push-button sensor
functions or functions for controller operation.

- KNX medium: TP 256
- Measurement of room temperature
- Room temperature control with setpoint specification
- Extension unit for room temperature controller
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- One or two functions per button
- Completion with cover kit 2-gang
- Inscription field can be illuminated
- Two red status LEDs per button – red, green or blue adjustable
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Brightness of status LEDs, operation LED and inscription field adjustable; switchable while in operation, e.g. during the night
- Disabling function: Disabling or change function mode of single or all button functions
- Alarm function, optional acknowledge by pressing any button
- Energy saving mode (for operation without controller function)
- Integrated bus coupling unit
- Connection for a push-button extension module, for extension with up to eight additional buttons

Ref.-no.
CD 5178 TSM

Push-button extension module

including transparent cover ref.-no.: CD 50 NA
for the extension of the Universal push-button module
(ref.-no.: CD 5291.. ST) and room temperature controller
module (ref.-no.: CD 5178 TSM) with up to 4 additional push-
buttons

Product characteristics

- One or two functions per button
- To be completed with cover kit
- Inscription field can be illuminated
- One status LED per button, red, green or blue, adjustable
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Brightness of status LED, operation LED and inscription field adjustable, can be changed during operation, e.g. during night times

Technical data

Cable length: max. 30 m
Cable type: J-Y(ST)Y 2 x 2 x 0.8 mm

KNX room controller display module

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Measurement and feedback control of the room temperature
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

All buttons can be assigned with push-button sensor functions or functions for
controller operation.

- KNX medium: TP 256
- Backlit LC display
- One or two functions per button
- To be completed with cover kit
- Eight status LEDs – red, green or blue
- Brightness of status LEDs and LCD adjustable
- Integrated bus coupling unit
- Connection of push-button extension module
- Integrated room temperature sensor
- External sensor (ref.-no.: FF NTC) can be connected
- Room temperature control with setpoint specification
- Two internal independent controllers for two independent areas – in connection with extension modules
- Display of room or set temperature (°C or °F)
- Display of outdoor temperature – with external sensor, e.g. weather station
- Display of time, in conjunction with KNX time encoder (in menu level)
- Button function or rocker function
- Disabling function: Disabling or change function mode of single or all button functions
- Alarm function, optional acknowledge by pressing any button
- KNX Data Secure compatible with ETS 5.7.7 or ETS 6.1.0 or higher
- Can be updated with the ETS Service App

KNX RF push-buttons

for inserts "blinds" ref.-no.: 1730 JE and 1731 JE
for inserts "light" ref.-no.: 1701 SE, 1701 PSE, 1704 ESE, 1702 SE, 1710 DE,
1711 DE, 1712 DE, 1713 DSTE, 1723 NE
for room thermostat insert ref.-no.: 1790 RTR

Intended use

- Operation of loads, e.g. light on/off, dimming of brightness and colour temperature, Venetian blinds up/down, value transmitter 1 byte, 2 bytes, 3 bytes and 6 bytes, brightness values, temperatures, calling up and saving of light scenes
- Room temperature control
- Operation in cabled KNX systems via radio converter (ref.-no.: MK 100 RF)
- Operation with system insert for switching, dimming, blinds, DALI, room temperature control or with satellite insert 3-wire

Product characteristics

- Activation of Venetian blinds, shutters, awnings, with blinds insert
- Switching and dimming of lighting, with switch or dimmer insert
- Colour temperature control of lighting, with DALI push-button controller TW
- Room temperature control, with room thermostat insert
- Operation with 2-wire or 3-wire satellite insert, rotary satellite insert or push-button
- Push-button functions adjustable: switching, dimming, blinds, value transmitter, scene extension, 2-channel operation and controller extension
- Operating concept (rocker or button) adjustable for each operating area
- Button evaluation (single-area operation or dual-area operation) adjustable
- One or two functions per operating area
- Controller extension with adjustable operating mode selection, forced operating mode switch over, presence function and setpoint adjustment
- Status LED – red, green or blue – adjustable per rocker
- LED functions orientation light and night reduction can be set separately
- Brightness of LED adjustable and switchable while in operation
- Disabling function: Disabling or change function mode of single or all button functions
- Internal sensor for temperature measurement, can only be used with the following inserts: ref.-no. 1701 SE, 1701 PSE, 1704 ESE, 1713 DSTE, 1731 JE, 1730 JE, 1790 RTR, 1723 NE
- Improved temperature measurement by including external temperature values via communication object
- Commissioning with ETS version 5.7.5 or higher
- KNX Data Secure compatible with ETS 5.7.5 or higher
- Can be updated with the ETS Service App

A labelling request in the GRAPHIC TOOL must be submitted together with the order: jung.group/gt
Subsequent labelling of the buttons is not possible.

Technical data

KNX medium:	RF1.R
Security:	X-mode
Commissioning mode:	S-mode
Radio frequency:	868.0 ... 868.6 MHz
Transmitting power:	max. 20 mW

KNX RF radio transmitter modules F 40

Intended use

- Radio operation of loads, e.g. light on/off, dimming, Venetian blinds up/down, brightness values, calling up and saving light scenes
- Operation in cabled KNX systems via radio converter (ref.-no.: MK 100 RF)
- Mounting on flush box with dimensions according to DIN 49073, screw fixing on walls or adhesive fixing on smooth, even surfaces (glass)

Product characteristics

- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- Button pairs for push-button function or rocker function
- Status indication with LED
- Battery-powered device
- Project design and commissioning with ETS5 or a more recent version
- Cannot be combined with frames in FLAT DESIGN.

KNX RF radio USB stick

Intended use

- PC interface for the addressing, programming and diagnostics of KNX RF devices
- USB stick for coupling to a PC with a Windows-based operating system

Product characteristics

- Commissioning, programming, visualisation and diagnostics of KNX RF devices
- Automatic installation of PC communication via HID profile
- KNX Data Secure compatible with ETS 5.7.3 or higher

Ref.-no.
USB 2130 RF

Technical data

USB version:	2.0
Connection USB:	type A
Radio frequency:	868.0 ... 868.6 MHz
Transmitting power:	max. 20 mW
Transmission range in free field:	typical 100 m

Cover kits see page 401

KNX RF radio converter

Project design and commissioning with ETS5 or a more recent version

Intended use

- Connection of KNX radio networks with cabled KNX lines
- Extension of the radio range in KNX radio networks (repeater operation, external power supply with 24 V DC, e.g. ref.-no. NT 2415 REG VDC)
- Installation in flush box with dimensions according to DIN 49073 in combination with a suitable cover

Product characteristics

- Use as media coupler in the function of area or line coupler (depending on the physical address)
- Use as KNX RF repeater possible
- Filter settings and filter tables
- As of V01: KNX Data Secure compatible with ETS 5.7.3 or higher
- As of V02: use as segment coupler possible with ETS 6.0.5 or higher
- Influence on forwarding of group telegrams (routing) by filter function in coupler operation
- Support of the full address range (groups 0-31) for filter function
- Forwarding of group telegrams (TP > RF, RF > TP) parameterizable
- Forwarding of physically addressed telegrams (TP > RF, RF > TP) parameterizable
- Forwarding of broadcast telegrams (TP > RF, RF > TP) parameterizable
- Telegram repetitions in case of transmission errors for group, broadcast and physically addressed telegrams can be set on the TP side
- Telegram confirmation for group and physically addressed telegrams can be separately configured on the TP side
- Configuration lock can be set (programming only via TP or RF)
- Status LED
- Conversion and generation of RF system broadcast telegrams
- Support of long frames
- Safe-state mode to stop the application program (e.g. if the device does not function properly due to errors in the project design or during commissioning)
- Function for reset to delivery state

Ref.-no.**MK 100 RF****Technical data**

**with integrated push-button interface 3-gang
with push-button function and acoustic signal**
Function: switching, dimming, shutter control, value
transmitter, scene extension

Intended use

- Operation of loads, e.g. light on/off, dimming, blinds up/down, brightness values, temperatures, calling up and saving light scenes, etc.
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Operation by turning or pressing the control button
- Integrated bus coupling unit
- Integrated push-button interface: Three binary inputs for floating contacts
- Functions for control button and push-button interface:
Switching, dimming, shutter control, value transmitters, calling up light scenes, etc.
- Two red status LEDs
- Acoustic signal transmitter, e.g. for status, operation or alarm message, ringtone or audible alert
- Alarm function, optional with confirmation by pressing
- Convenience function for dimming and value adjustment: Preselection of the increment by fast turning
- Energy saving mode
- Separated locking functions for control button and push-button interface

KNX presence detector mini

ETS product family: Physical sensors
Product type: Movement

Product characteristics

- Integrated bus coupling unit
- 3 PIR sensors
- Detection field 360°
- Integrated brightness sensor
- Deployed as presence detector, motion detector, or for alert operation
- Output functions: Switching, staircase lighting function, switching with forced position, value transmitter, light scene extension, operating mode setting for room temperature controller
- Extension of the detection area by way of operating several devices as main unit or extension unit
- Adjuster for manual adjustment of sensitivity
- Status LED: Flashes during motion detection; depending on programming in normal operation or only during the walking test mode

Additional characteristics of "Universal" version:

- Manual operation with IR remote control possible (ref.-no.: KNX PM FB IR)
- 5 function blocks for motion detection each with 2 outputs
- Function blocks switchable, e.g. for day/night operation
- PIR sensors can be evaluated separately
- Brightness sensor function with 3 limiting values
- Light control with max. 3 channels, setpoint adjustment in operation, separate configuration of dimming-up, control and dimming-down phase
- Light control can be combined with presence detector function
- Temperature measurement

KNX room temperature controller module 2-gang

including transparent cover and paper inlay with symbols

Intended use

- Single-room temperature control in KNX installations
- Operation of loads, e.g. light on/off, dimming, blinds up/down, calling up and saving light scenes, etc.
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

All buttons can be assigned with push-button sensor functions or functions for controller operation.

- KNX medium: TP 256
- Measurement of room temperature
- Room temperature control with setpoint specification
- Extension unit for room temperature controller
- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- One or two functions per button
- Completion with cover kit 2-gang
- Inscription field can be illuminated
- Two red status LEDs per button – red, green or blue adjustable
- One operation LED as orientation light and to indicate the programming status – red, green or blue adjustable
- Brightness of status LEDs, operation LED and inscription field adjustable; switchable while in operation, e.g. during the night
- Disabling function: Disabling or change function mode of single or all button functions
- Alarm function, optional acknowledge by pressing any button
- Energy saving mode (for operation without controller function)
- Integrated bus coupling unit
- Connection for a push-button extension module, for extension with up to eight additional buttons

KNX room temperature controller

with rotary knob for setpoint adjustment

Only with the ETS 3.0d version or later versions the full functionality will be available.
 ETS product family: Heating, A/C, ventilation
 Product type: Regulator

Intended use

- Single-room temperature control in KNX installations
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Integrated bus coupling unit
- Measurement of room temperature and comparison with setpoint temperature
- Setpoint specification by selection of the operating mode
- Operating modes: comfort, standby, night operation, frost/heat protection
- Heating and cooling mode
- Heating and cooling with basic and additional step
- Setpoint adjustment
- Presence push-button
- Status LEDs

KNX room temperature controller
**with integrated push-button interface 4-gang
with rotary knob for setpoint adjustment**

Only with the ETS 3.0d version or later versions the full functionality will be available.

ETS product family: Heating, A/C, ventilation

Product type: Regulator

Intended use

- Single-room temperature control in KNX installations
- Type of loads for binary output: LED or electronic relays
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Integrated bus coupling unit
- Measurement of room temperature and comparison with setpoint temperature
- Setpoint specification by selection of the operating mode
- Operating modes: comfort, standby, night operation, frost/heat protection
- Heating and cooling mode
- Heating and cooling with basic and additional step
- Setpoint adjustment
- Presence push-button
- Status LEDs
- Push-button interface with four inputs or two outputs (0.8 mA) and two inputs, e.g. for window contacts, push-buttons, LEDs, etc.
- Function of the inputs: switching, dimming, shutter control, light scene extension, brightness or temperature value transmitter
- Optional: External temperature sensor (ref.-no.: FF NTC) connectable to input 4

Technical data

KNX medium:	TP 256
Rated voltage KNX:	DC 21 ... 32 V SELV
Current consumption KNX:	max. 10 mA
Connection, KNX:	connection terminal

KNX room autostat

**with integrated push-button interface 4-gang
without rotary knob for setpoint adjustment**

without any operational elements

Only with the ETS 3.0d version or later versions the full functionality will be available.

ETS product family: Heating, A/C, ventilation

Product type: Regulator

Intended use

- Single-room temperature control in KNX installations
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Integrated bus coupling unit
- Measurement of room temperature and comparison with setpoint temperature
- Setpoint specification by selection of the operating mode
- Operating modes: comfort, standby, night operation, frost/heat protection
- Heating and cooling mode
- Heating and cooling with basic and additional step
- Operation solely via the bus
- Push-button interface with four inputs or two outputs (0.8 mA) and two inputs, e.g. for window contacts, push-buttons, LEDs, etc.
- Function of the inputs: switching, dimming, shutter control, light scene extension, brightness or temperature value transmitter
- Optional: External temperature sensor (ref.-no.: FF NTC) connectable to input 4

Technical data

KNX medium:	TP 256
Rated voltage KNX:	DC 21 ... 32 V SELV
Current consumption KNX:	max. 7.5 mA
Connection, KNX:	connection terminal
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-25 ... +70 °C
Output current:	0.8 mA
Inputs and outputs	
Cable type:	J-Y(St)Y 2 x 2 x 0.8 mm
Cable length:	max. 5 m
Temperature sensor cable length:	max. 50 m

Use deep wall box for cables with 1.5 mm².

KNX temperature controller fan coil

Intended use

- Sensor module for operating electrical fan coil units in KNX installations
- Measurement and feedback control of the room temperature
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- Real glass front
- 8 capacitive sensor buttons
- Internal temperature sensor
- External temperature sensor can be evaluated
- Control of fan coil units
- Heating and/or cooling mode
- Suitable for 2-pipe or 4-pipe systems
- Up to 3 fan speeds can be controlled
- Room temperature controller function
- Preselection of the current energy level either through the option of 4 operating modes in accordance with KNX standard or of 5 temperature profiles for use in hotels or similar sites
- Display for indication of actual temperature (°C or °F), fan speed, operating mode/profile
- 1 operating level and 2 menu levels
- Menu levels blockable
- 1 status LED (red/green/blue)
- Display brightness and contrast adjustable
- Duration of the display illumination up to 120 seconds
- Operation as extension unit for temperature controller possible
- Integrated bus coupling unit

Technical data

KNX medium:	TP 256
Rated voltage KNX:	DC 21 ... 32 V SELV
Current consumption KNX:	8 ... 17.5 mA
Protection class:	III
Ambient temperature:	-5 ... +45 °C
Storage/transport temperature:	-20 ... +70 °C

KNX room controller LS TOUCH

Only install as a single device, not suitable for combinations!

Intended use

- Operation of loads (light switching, dimming, controlling blinds and shutters etc.)
- Visualisation of system statuses and information (e.g. temperature and brightness)
- Measurement and feedback control of the room temperature
- Installation in flush box with dimensions according to DIN 49073

Product characteristics

- High resolution IPS colour display
- Capacitive touchscreen
- Function of favourites page adjustable (without ETS)
- Max. 32 operating functions switching, dimming, controlling blinds, value transmitters, calling up light scenes, etc.
- Integrated room temperature sensor
- Room temperature control with setpoint specification
- Control of split units (only with update, available since July 2024)
- Alarm function (optical and/or acoustic)
- Max. 8 timer functions can be activated and set (depending on time, astronomical clock or random)
- Integrated proximity and brightness sensor
- Integrated bus coupling unit
- Connection of installation buttons or reed contacts possible
- Commissioning and support of KNX Data Secure with ETS from version 5.7.4

Technical data

Screen diagonal:	86 mm / 3.4"
Resolution:	320 x 310
Recommended mounting height:	1.5 m
KNX	
KNX medium:	TP 256

KNX RF radio USB stick

- PC interface for the addressing, programming and diagnostics of KNX RF devices
- USB stick for coupling to a PC with a Windows-based operating system
- KNX Data Secure compatible with ETS 5.7.3 or higher

Ref.-no.

USB 2130 RF

Technical data

USB version:	2.0
Connection USB:	type A
Radio frequency:	868.0 ... 868.6 MHz
Transmitting power:	max. 20 mW
Transmission range in free field:	typical 100 m

KNX RF radio converter

Project design and commissioning with ETS5 or a more recent version

- As of V01: KNX Data Secure compatible with ETS 5.7.3 or higher
- As of V02: use as segment coupler possible with ETS 6.0.5 or higher
- Connection of KNX radio networks with cabled KNX lines
- Extension of the radio range in KNX radio networks (repeater operation, external power supply with 24 V DC, e.g. ref.-no. NT 2415 REG VDC)

Ref.-no.

MK 100 RF

Technical data

KNX RF	
Radio frequency:	868.0 ... 868.6 MHz
Transmitting power:	max. 20 mW
Transmission range in free field:	typical 100 m
KNX TP (media coupler operation)	
KNX medium:	TP 256
Commissioning mode:	S-mode
Rated voltage KNX:	DC 21 ... 32 V SELV
Current consumption KNX:	max. 5 mA
Repeater operation	
Rated voltage:	DC 24 V SELV
Dimensions (L x W x H):	44 x 29 x 16 mm

Actuators

KNX IP interface

rail mounting device, 2 rail units
Project design and commissioning with ETS5 or a more recent version

- KNX Data Secure compatible with ETS 5.7.3 or higher

Visualisation and operation

The Smart Controls 5 and 8 as well as the Smart Panel 8 act as control panels to operate various home automation systems via apps. All available applications are clearly displayed and can be called up directly via the touch display.

Smart Panel 8

Smart Control 5

Visu Pro Server

Smart Visu Server

The task of JUNG servers and displays is to network modern building technology, to operate it centrally and to visualise states and functions. The future-proof technology supports users in their everyday lives and work and provides more convenience, economy and energy efficiency.

KNX signal panel

ETS product family: Display
Product type: Signal panel

The glass panel with aluminium housing is equipped with 24 capacitive sensor buttons and 24 status LEDs.

Product characteristics

- Push-button functions switching, dimming, controlling blinds, value transmitter, calling up light scenes etc.
- High quality glass surface with 24 sensor buttons
- Operation via touching the sensor buttons
- Labelling with exchangeable labelling foil
- Status indication with 24 LEDs; the colours red, green and blue can be configured
- Acoustical feedback for touching sensor
- Fault message on dismounting
- Logic and time functions
- Integrated bus coupling unit
- Supply via separate power supply (ref.-no. NT 2405 VDC) or the auxiliary voltage output of the KNX power supply

Ref.-no.

Output voltage:	DC 24 V

KNX Smart Panel 8**Intended use**

- Visualisation and operation of system statuses and information on building automation
- Mounting horizontally (recommended) or vertically
- Mounting in flush-mounted recessed box (ref.-no. EBG 24) or on flush box with dimensions according to DIN 49073 (recommendation: approx. 60 mm deep)

Product characteristics

- High performance HD screen
- Proximity sensor
- Capacitive touchscreen
- Cleaning mode with touch screen lock
- Fanless, without rotating parts
- Integrated bus coupling unit
- Graphical user interface for visualisation and operation of KNX devices
- Project design with Windows software "KNX Smart Panel Designer" (minimum requirements: Windows 10, 64-bit, 120 MB free disk space)
- Commissioning with ETS version 5.7.4 or higher and DCA
- KNX special functions, e.g. scenes, sequences, central function, presence simulation
- Rooms or elements: max. 300
- Structured by several rooms or as single room
- Time tables: max. 125 with 10 commands each
- Logic operations: max. 55
- Astronomical clock
- Visualisation of indoor and outdoor temperature
- Automatic temperature average per room
- Notifications (alarm, warning, information)
- E-mail notification
- Push notification
- Favourites page
- Light / dark colour scheme
- Two-level configuration access (admin / user)
- User management
- User (PIN codes): max. 10
- PIN protection for rooms / elements
- Backup and restore
- Mobile app
- Secure remote access via myJUNG account (SP-REMOTE-L necessary)
- App users per installation: max. 10
- Door communication function only in combination with Siedle Smart Gateway SG 650-.. or SG 150-..

Smart Visu Server

including plug-in power supply

Intended use

- Visualisation and operation of KNX systems via devices with HTML5 browser or app (iOS, Android), e.g. Smart Control (ref.-no.: SC 5 SW, SC 0081 U), smartphone, tablet, laptop, PC, etc.
- Visualisation and operation of Philips Hue systems
- Operation in local IP networks that support DHCP (Dynamic Host Configuration Protocol), or with static IP address (IPv4)
- Operation in interiors

Product characteristics

- Web visualisation of KNX system for status indication and operation (SV-Home)
- Access from max. 10 different clients to SV-Home recommended
- Integrated web-based commissioning tool (SV-Control)
- Easy to create a pre-configured user interface, optimised for domestic applications and small commercial facilities
- Graphical control elements: symbols can be selected from supplied libraries
- Import of group addresses (three-stage) via OPC import (ETS3, ETS4, ETS5)
- Manual input of group addresses possible
- 32 areas
- 320 dynamic functions (max. 1600 data points)
- 32 action groups
- 320 configurable actions (max. 32 functions per action)
 - Customised
 - Switching times
 - Status logic
 - Depending on events
 - Astro
- Creation of up to 24 users with different roles and rights
- Storage of data (e.g. temperature values) and creation of diagrams (display of diagrams not possible with SC 5 SW)
- Connection to KNX bus via interfaces (ref.-no. IPR 300 SREG, IPS 300 SREG, 20320 1S IPS R), not included
- Integration of Philips Hue systems in the KNX installation
- Connection to Philips Hue via Philips Hue Bridge
- Integration of SONOS loudspeakers in the KNX installation
- Integration of Amazon Alexa voice control via myJUNG account
- Integration of Google Home voice control via myJUNG account
- Integration of Samsung SmartThings via myJUNG account
- Secure remote access via myJUNG account (SV-SERVER-L necessary)
- Secure remote sharing with further myJUNG accounts
- Update and upgrade compatible

Visu Pro Server

fanless, without rotating parts
 including plug-in power supply

Intended use

- Mini PC for domestic applications and small commercial facilities
- Visualisation and operation of KNX systems via devices with HTML5 browser or app (iOS, Android), e.g. Smart Control (ref.-no.: SC 5 SW, SC 0081 U), smartphone, tablet, laptop, PC, etc.
- Support of KNX IP Secure and KNX Data Secure (as of version 4.5)
- Operation in local IP networks that support DHCP (Dynamic Host Configuration Protocol), or with static IP address (IPv4)
- Desktop device, mounting on DIN rail according to EN 60715 possible
- Max. size of the visualisation project as template in JUNG Smart Assistant
- Connection to KNX bus via interfaces (ref.-no. IPR 300 SREG, IPS 300 SREG, 20320 1S IPS R, 2131 USBS REG, 2131 USBS), not included

Product characteristics

- Fanless mini PC
- JUNG Visu Pro software pre-installed and activated
- Windows 10 pre-installed
- Quadcore Intel Celeron processor
- 4 GB RAM
- 64 GB internal memory, partly used by operating system
- 1 x HDMI
- 4 x USB 3.0
- 2 x LAN RJ45 (LAN 1: static IP address, LAN 2: DHCP)
- The visualisation can be realised with devices with a browser suitable for HTML5 (e.g. latest version of Chrome, Firefox or Safari)
- Access from max. 10 different clients possible
- Integration of Amazon Alexa voice control via myJUNG account
- Integration of Google Home voice control via myJUNG account
- Integration of Samsung SmartThings via myJUNG account
- Secure remote access via myJUNG account (JVP-L necessary)
- Secure remote sharing with further myJUNG accounts
- Access to IP cameras via RTSP
- Control of IP cameras via ONVIF (profile S)
- Multilingual visualisation can be created
- Visualisation switchable between day/night
- Update and upgrade compatible

Process connections

- KNX editor/ KNX editor 2.0
- instlight editor
- Device editor
- vitalLED editor
- XPL editor
- SENEK energy storage
- Process model
- Visualisation editor
- Work sheet generator
- Calendar
- JUNG Visu Pro Starter

Data import from ETS

- ETS5: use of project export of ETS
- ETS4: use of project export of ETS
- ETS3: use of OPC export of ETS
- ETS2 version 1.1, 1.2 and 1.3: files generated by "print export" can be read
- Previous ETS versions: not possible

Technical requirements

Hardware

- As for Visu Pro Server (ref.-no.: JVP-SERVER-H2) or better
- Please note: The performance of the hardware is one of the limiting factors for the project size.

Operating systems

- Windows 10 + 11

KNX editor

The Falcon driver of the KNX Association is used for the KNX bus. The KNX connection requires a suitable version of the Falcon driver and the respective interfaces.

Data import from ETS

- ETS5: use of project export of ETS
- ETS4: use of project export of ETS
- ETS3: use of OPC export of ETS
- ETS2 version 1.1, 1.2 and 1.3: files generated by "print export" can be read
- Previous ETS versions: not possible
